

# Rubber Mounting Feet

## • Rubber Mounting Feet

Rubber Mounting and Support Feet are ideal for suspension of cable tray and pipework. HVAC and air conditioning units in both indoor and outside locations also provides anti-vibration support for solar thermal and solar PV installations on flat roofs. Can be drilled through to provide extra support should a permanent fixing be required or left as non secured base support to prevent penetration of roofing systems and membranes. Manufactured from heavy recycled rubber and aluminium channel to withstand outdoor environments.

Code	Size	A	B	C
SF250	250mm	250mm	160mm	210mm
SF400	400mm	400mm	160mm	360mm
SF600	600mm	600mm	160mm	560mm
SF1000	1000mm	1000mm	160mm	960mm
