BF2R

ASSEMBLY IN STEPS 2

The fast fix self-couplers gives a strong rigidity across the joints, whilst meeting and exceeding BSEN61537:2007 standard for electrical continuity.

The fast fix self-couplers attached to the end of the Wire Basket are used as a guide, and can be secured within seconds, therefore saving time and money to the installer.

Univolt Wire Basket lengths can be installed upto 78% faster than traditional Wire Baskets, making Univolt the ideal solution for new Data and Distribution Centres.

Wire basket characteristics:

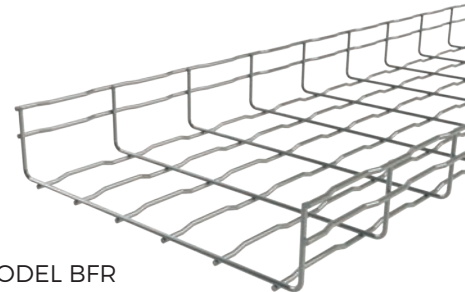

Metallic system
Non flame propagating
System with electrical continuity
Maximum temperatura 150°C
Minimum temperatura -50°C
Comply with RoHS, 2011/65/UE
Large range of accessories
Impact resistance: 20J
Metallic coating resistance against the corrosion:

* DIN 4102-12
* CSN 73 0895
* STN 92 0205
