

Aventa In-Line

Bathroom, en-suite, utility room and kitchen ventilation

KEY FEATURES

- In-Line mixed flow fan with Flow rate up to 78 l/s (280 m³/h)
- High pressure, low noise
- Two speed (normal and boost)
- Adjustable Run on Timer version available
- Low Watt motor from 21 W
- IPX4 rating
- 3 year warranty

The Aventa range provides compact, quiet and powerful remote mounted ventilation for ducted installations. Available in high performance, two speed versions they are less bulky than larger in-line centrifugal fans and can be installed in loft spaces or service shafts for remote extraction.

With high flow / high pressure development characteristics they can be used with flexible ducting and flat duct systems to ensure compliance with Building Regulations guidance ensuring installed performance and extraction conditions are met.

Combining two Aventa fans allows for even more powerful operation. Mounting in parallel (left hand image on facing page) doubles the air flow, whilst two fans in series (right hand image on facing page) leads to a doubling of the air pressure for longer duct runs.
