

OUH2 Industrial Fan Heaters

- An effective means of heating industrial premises
- Extremely robust UK manufactured heaters
- Exceptional reliability – backed by a 5 year warranty

Typical applications

- Warehouses
- Workshops
- Factories

Features

- FIVE YEAR WARRANTY
- Heavy gauge steel construction
- Bracket provided with every heater for wall or ceiling mounting
- Suitable for vertical suspension – hooks provided as standard
- Built-in temperature control thermostat
- Optional control switch providing on/off/fan only settings
- A number of heaters can be controlled from a single point
- Auto-reset over-temperature protection and heat purge device to clear residual heat

OUH2 Unit Heater
Robust, Rugged, Reliable

Heater Range	
Model	kW
OUH2-03	3.0
OUH2-05	5.0
OUH2-07	7.5
OUH2-10	10
OUH2-15	15
OUH2-20	20
OUH2-25	25

Physical Data				
kW	Dimensions (mm)			Weight (kg)
	W	D	H	
3 to 10	435	405	320	18
15 to 25	565	485	445	37

OUH2 wall mounted in a warehouse
in Axminster, Devon

Performance Data				
Model	kW	Volts	Airflow (m ³ /h)	dB* @ 2m
OUH2-03	3.0	230V or 400/3N	1100	60
OUH2-05	5.0	230V or 400/3N	1100	60
OUH2-07	7.5	230V or 400/3N	1100	60
OUH2-10	10	400V/3N	1100	60
OUH2-15	15	400V/3N	3150	62
OUH2-20	20	400V/3N	3150	62
OUH2-25	25	400V/3N	3150	62

*Noise levels are factory tested not laboratory tested

OUH2 Unit Heater suspended using hooks provided

Where roof height exceeds 4m we recommend using our DSU Destratification units – see page 41

OUH2 installed in a workshop in Billingshurst, West Sussex

25kW industrial fan heater installed in an automotive parts store

20kW heater providing background heat in a storage facility in Kent
