

# BT2GRID Installation Instructions

## Product components:

<b><i>Code</i></b>	<b><i>Name of the component</i></b>	<b><i>Quantity</i></b>
1	Cast iron griddle plate	1pcs
2	Aluminum feet	4pcs
3	Wooden handle	2pcs
4	Inner hexagon screw	8pcs

## Install the aluminum feet on the griddle plate:

Place an aluminum foot on the corner of the cast iron plate, then fix the inner hexagon screw. The other four feet are secured the same way.

Attach the four aluminum feet as in the above picture, ensuring they are fixed to the same angle and level.

## Install the two wooden handles:

Place the two wooden handles between the aluminum feet.

When installed correctly, the two aluminum feet on each side should ensure the handles are level.

**To tighten the hexagonal screws use a tool like the one pictured below:**

***Please note: This tool is not included.***

## Technical drawing for the BT2GRID:

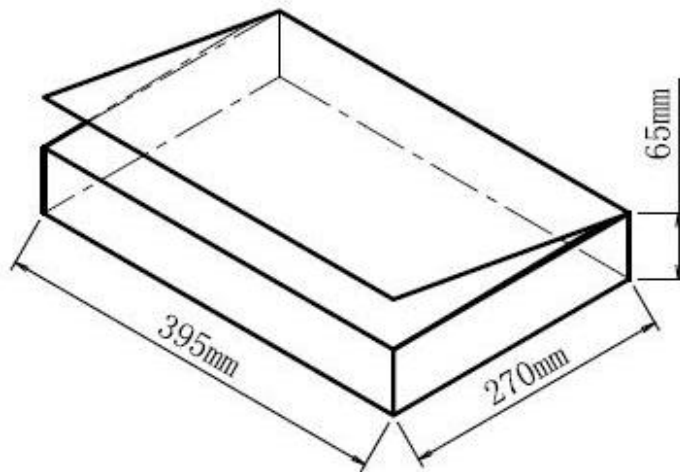

### Dimensions:

Length: 368 mm  
Width: 240 mm

### Packing dimensions:

Length: 395 mm  
Width: 270 mm  
Height: 65 mm:

The cast iron pan griddle, aluminum feet and wooden handles are disassembled when packed.

## Cleaning the griddle

- After each use, you should wipe the griddle plate over with warm soapy water and a soft cloth. ***You should only clean the griddle plate when it has sufficiently cooled down.***
