Date	<b>Correct as of 28th Oct 2025</b>
Brand	<b>Clipacore</b>
Product	<b>QCXP22</b>
Description	<b>XPRESSCUT 22 x 300mm Dry Diamond Core Drill Bit</b>
Barcode	<b>5013969248920</b>
Commodity code	<b>8207509000</b>
Country of origin	<b>CN</b>

## Features & Benefits

The XPRESSCUT Dry Diamond Core Drill Bit is a universal dry core that boasts high quality diamond teeth and S20C Steel body, ensures tough build and long life. Cores through most UK building materials, such as semi-engineering bricks, clay products, and limestone aggregate concrete. 10mm tall, high concentration diamond segments that are brazed and laser welded for ultimate strength. 1/2" BSP Female Thread, compatible with Clipacore Quick Release system and all other 1/2" BSP attachments. XPRESSCUT bits have spiralled and slotted barrels, helping to remove dust and debris, increasing the airflow to the cutting edge while also cooling down the core. The 22mm core bit can also be used on its own to prevent blowing the brick face or render wall, compared to using a 22mm SDS masonry drill bit on hammer action.

## Product Weights and Measures
