

**SEEKLIGHT**

- 1 Before commencing work switch off the power supply by removing the fuse in the fuse box, or should isolate at main switch as neutral is a live conductor.
- 2 Connect seeklight wires as shown in diagrams below. Ensure terminal screws are properly tightened and no bare wire is visible. Push back unit into mounting box making sure conductors are not trapped.
- 3 Screw the unit to the mounting box.
- 4 Note: With the standard wiring configurations as described in the diagrams the Seeklight will only illuminate when the light it controls is off.
- 5 These products must be installed in accordance with the latest Building and IEE wiring regulations. If in any doubt, please contact a qualified electrician

**PLEASE NOTE** The LED 'Seeklight' must be disconnected when carrying out insulation testing to avoid a false reading

**1 Gang 1 Way 10AX Switch with Seeklight**

**1 Gang 2 Way 10AX Switch with Seeklight**

**2 Gang 2 Way 10AX Switch with Seeklight**

**3 Gang 2 Way 10AX Switch with Seeklight**
