Possible applications

WWW.RUNPOTEC.COM
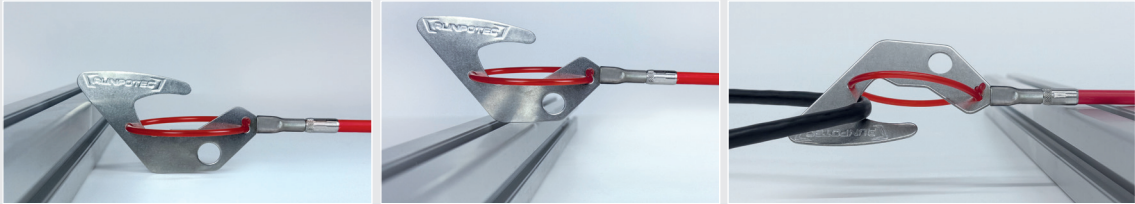

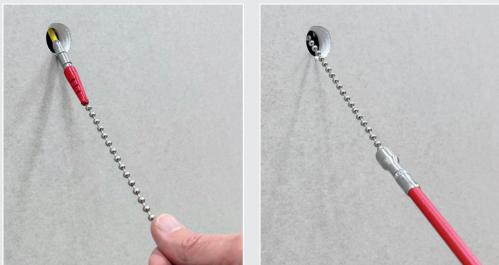

Advantages of the push rod system

Stainless steel sliding hook
Overcomes obstacles up to 8 cm, perfect gliding properties on all surfaces, optimal cable catch, tilt function for changing direction, cable attachment option.

Plastic-coated basalt rods
Extreme bending radii are possible, yet the rods remain dimensionally stable and virtually break-free.

Ball chain
The flexible ball chain can easily be pulled through even the smallest holes or wall openings using the strong magnet.

KG 25
Steel chain

Magnet

RG7 – Guiding head incl. swivel
Total breaking load 270 kg, very narrow bending radius and good sliding properties.
Perfect for suspended ceilings, cavity walls etc.

RG7 – Guiding head incl. swivel with front thread and eyelet Ø 7 mm

KG 270

LED lamp
130 lumen, shockproof, incl. AAA battery

Extra strong magnet
Can hold metal objects up to 2.5 kg

Magnet

Practical storage bag
For RUNPOSTICKS (long/ short), storage compartment for the extensive accessories and carrying belt.
**Flexible storage options:** ❶ Rod storage without accessories, ❷ Rod storage with accessories attached

Stainless steel connections
No rusting, no impact edges, quality-tested manufacture
