Introducing the NEW Di-LOG ALVA Series EV Ready Multifunction Tester
The Next-Generation of Electrical Testing.

Designed for 18th Edition compliance, the ALVA Series MFT combines precision, automation, and cutting-edge technology for seamless electrical testing. Its full-colour TFT screen and intuitive ALVA UI enhance usability with pass/fail settings, on-screen guidance, and full range RCD testing functionality (AC, A, EV, F, B & B+).
