230V Submersible Clean Water Pump with Float Switch, 280L/min, 550W

STOCK No. 27476 **BRAND** Draper

BARCODE 5059482108136

WARRANTY 12 months parts and labour

FEATURES

- Submerge up to 7m deep
- Clears water quickly, 280L per min
- Leaves as little as 1mm residual water
- Automatic float switch
- Telescopic handle and compact design

DESCRIPTION

This submersible clean water pump efficiently removes debris-free water from flooded basements, pools and hot tubs. It is also suitable for water transfer for irrigation, garden water features and rainwater harvesting systems. The pump can be submerged up to 7m deep and its automatic float switch turns the motor on or off depending on the water level. An adjustable water level inlet enables pumping down to just 1mm of water. While designed for clean water, it can handle small debris such as gravel and dirt up to 5mm wide. Lightweight and compact, it features a convenient telescopic carry handle for easy transport.

CONTENTS

1 x 230V Submersible Clean Water Pump with Float Switch, 280L/min, 550W

SPECIFICATIONS

Voltage	230V
Motor	550W
Max output	280L/min
