

**Product Code:** FHD212

**Description:** 12v DC Hardwire Fixed Temperature Heat Detector with Relay Base

### General Information

|                                |                                |
|--------------------------------|--------------------------------|
| <b>Dimensions</b>              | ø102mm x 48mm (Including Base) |
| <b>Type</b>                    | Conventional                   |
| <b>Class</b>                   | A2/S                           |
| <b>Wire Gauge</b>              | 0.4mm - 2.0mm TWIN             |
| <b>Weight (Including base)</b> | 160g                           |

### Testing

**Test Facility** Heat Source

### Outputs

**Relay** 30V/0.5A

### Power

**Operating Voltage** 9 - 30VDC  
**Standby Current @ 12v** < 50µA  
**Alarm Current @ 12v** 29mA

### Environment

**Ingress Protection** IP30  
**Relative Humidity Resistance** (93±3)% @ 40°C  
**Operating Temperature** -10°C to 60°C
