

Product Code: MAGPRO-10Si

Description: Conventional Sounder Module with Isolator

General Information

Dimensions	126mm x 176mm x 57mm
Protocol Type	Custom (Closed)
Max Cross-section of the cable	0.4 - 2.0 mm
Weight	230g

Outputs

Number of Outputs	1
Type of Output	Monitored Conventional Sounder Circuit

Power

Operating Voltage	15 - 32 VDC
Permissible Voltage Ripple	3.0Vpp @ 27VDC
Output's Electrical Characteristics (Max.)	28VDC @ 0.75A
Current consumption in STAND-BY mode	270µA @ 27VDC
Current consumption with 1 LED ON	3.6 mA

Environment

Ingress Protection	IP40
Relative Humidity Resistance	(93 ± 3)% @ 40°C
Operating Temperature	-10°C to 60°C

Components Supplied

1 x 10K Ohm Resistor
