DR Cooker Hoods was established in 1979 to supply the new generation of cooker hoods to the electrical and kitchen trades. Their superior design made them much easier to install, they were Dual Function, that is they could be used in either ducted or recirculating mode and were widely acknowledged for setting new standards in the marketplace.

These new cooker hoods were supplied by Elica Spa of Italy, a fledgling company with great aspirations. The first models comprised two free-standing dual function hoods: the 60 Select and the 90 Deluxe in 2 colours, brown and white.

From these small beginnings, Elica went from strength to strength and is now the largest manufacturer of cooker hoods in the world. In this catalogue you will see an unequalled range from the most sophisticated, state-of-the-art Wave to the simple but effective freestanding models. The cornerstones of Elica's success are its innovative designs and the quality of its products; many of the same models sold in 1979 continue to be in daily use today and spare parts for these are still available.

DR Cooker Hoods has also flourished to become the major independent supplier in the market. We now offer the widest selection of cooker hoods in the UK, both the Elica range and our own Made in Great Britain County, Countess and Cove.

The latest addition to our product line is the Elichef range of cooking equipment created to enhance and

complement our Elica cooker hoods and accessories, From multifunction, fan, and conventional ovens to an array of hobs including, wok burners, gas, electric and ceramic. The requirements for every type of cooking are precisely met.

Hi-Tech manufacturing techniques, environmentally friendly practices and a constant commitment to superior products ensure the success of this new range. The built-in appliances for the range have also been scrupulously selected from throughout Europe, including the UK.

We also offer the best service to our customers by ensuring that all our products carry CE approvals and adhere to high standards of safety and performance. In addition, our trained, knowledgeable and approachable staff are dedicated to offering the best advice to both out trade customers and consumers.

Just one of the production lines at Serra San Quirico.

Imaginative efficiency, purity of form. DR Cooker Hoods and Elica have used the very latest technology, to marry the beauty of the form and the power of extraction

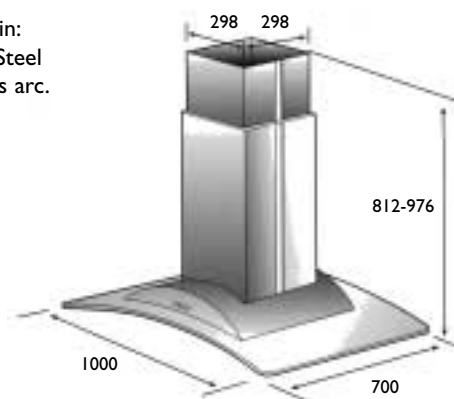

iceberg island

Beauty and ability are a seductive combination, and for Elica, these two qualities have always gone hand-in-hand. Now they lie behind our marriage of glass and steel in this Iceberg island chimney hood. The rounded lineaments of the innovative designs, together with the toughened glass beautifully crafted beneath the classic steel structure, make this new model a gleaming gem amongst the vast range that we offer.

- 4 speed selector switch.
- Quick release, washable metal grease filter.
- 4 x 20w halogen lamps.
- 150mm (6") dia. duct spigot supplied.
- Type 160 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:
Stainless Steel
with Glass arc.

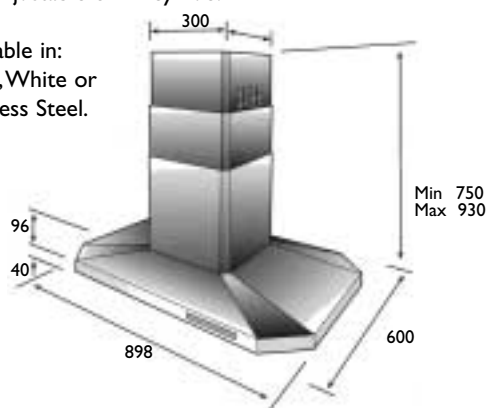

fiji island

A superb island design feature, with the Hi-Tech performance, to create a cleaner better atmosphere within the kitchen and adjoining rooms and to brilliantly illuminate the cooking surface. The most popular size of island cooker hood, 60cm x 90cm with corners cut to form an attractive octagon, reducing the possibility of corner contact with the chef's head.

- 4 speed selector switch.
- Quick release, washable metal grease filters.
- 2 x fluorescent lamps.
- 150mm (6") dia. duct spigot supplied.
- Type 160 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:
Black, White or
Stainless Steel.

wave

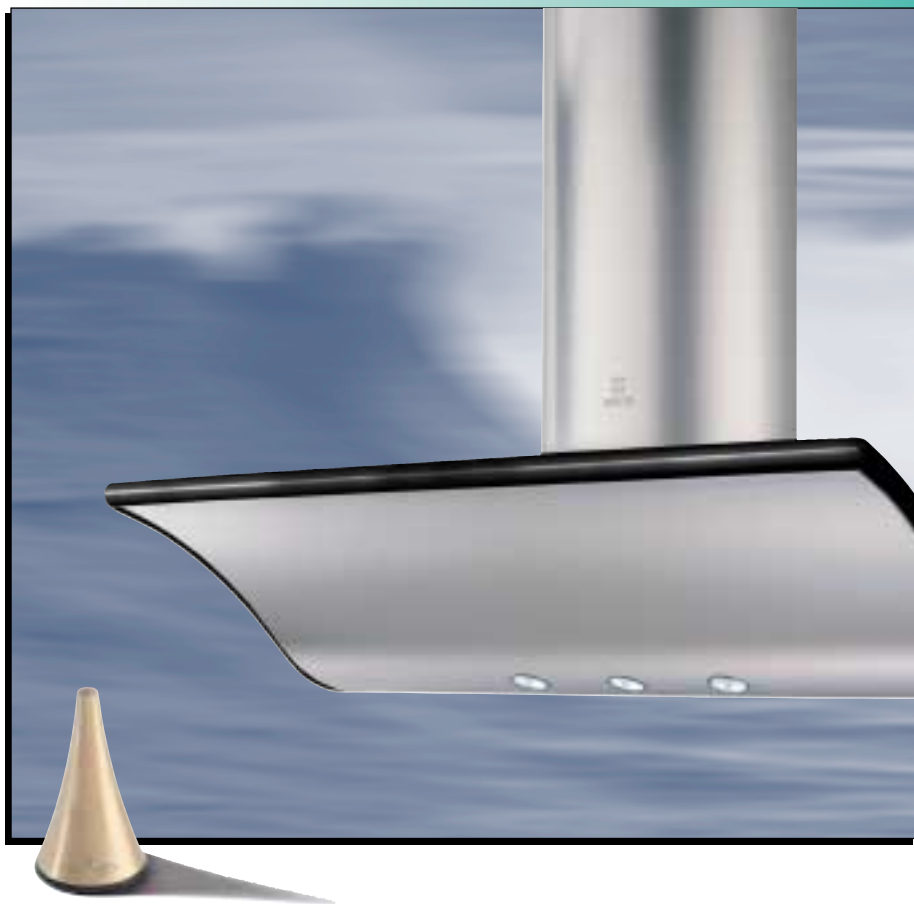

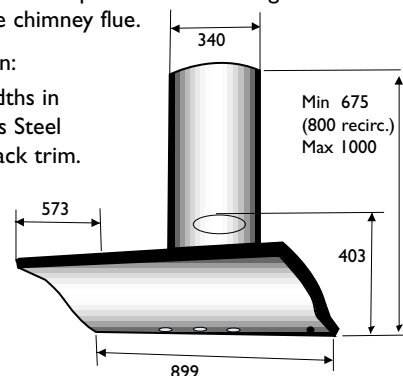

Wave - from the David Lewis Collection.

This stylish cooker hood has the latest "state of the art" technology and can be remotely controlled by means of the small brass, infra red control unit, supplied. The six speed motor effectively removes cooking odors and the aluminium grease filter collects the airborne grease. Wave even tells you when the filters require maintenance! The 3 halogen lights, can be used on full power, or dimmed to suit the occasion. Motor and lights can be varied by either touch control or using the infra red control unit.

- 6 speed electronic with remote control unit.
- Stainless Steel grease filter.
- 3 halogen lamps.
- 150mm (6") dia. duct spigot supplied.
- Charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

90cm widths in
Stainless Steel
with Black trim.

sail

Sail - from the David Lewis Collection.

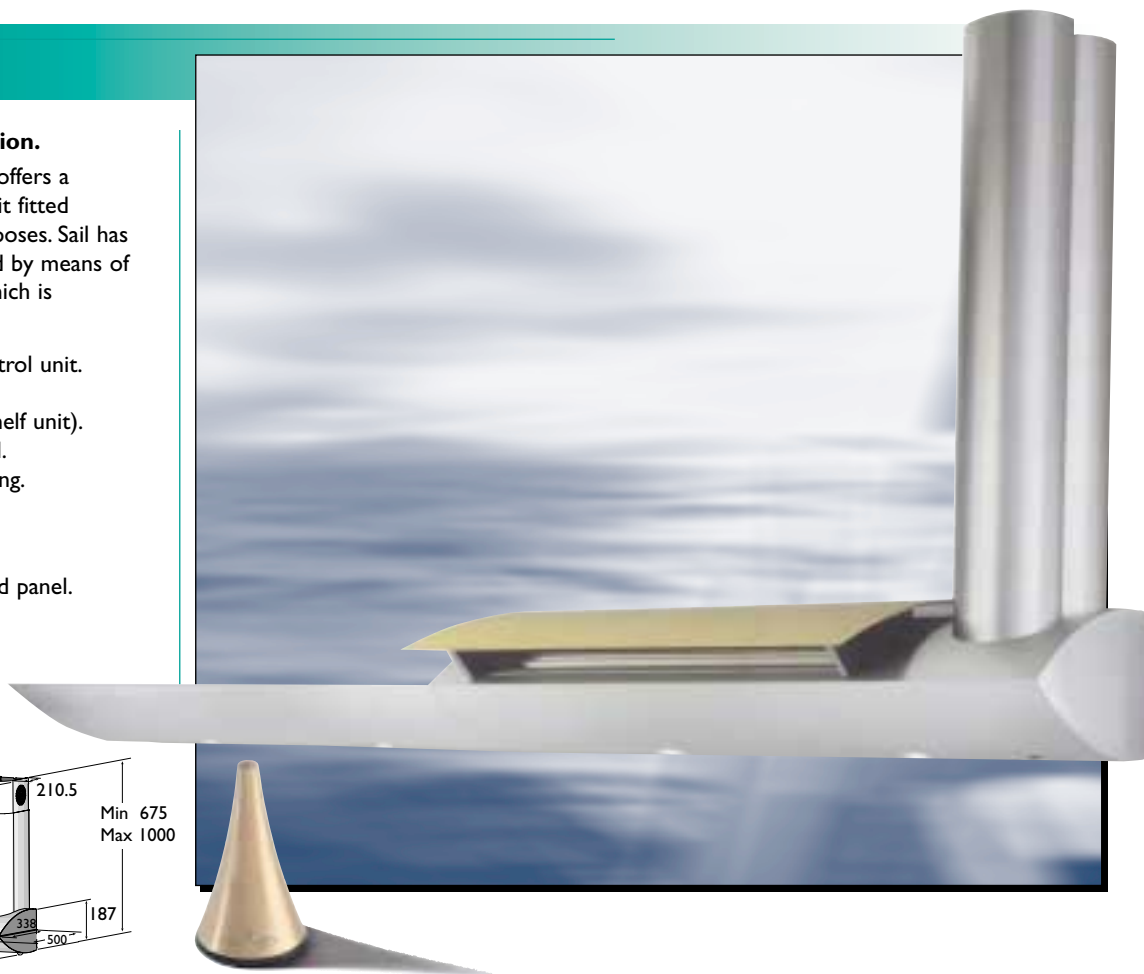

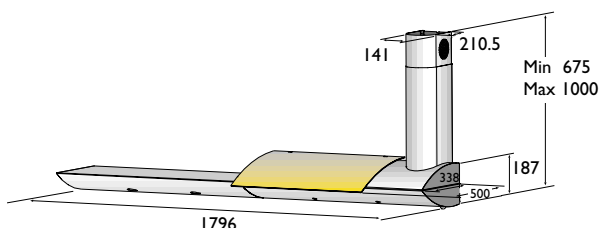

Using "state of the art" technology, Sail offers a stylish extractor complete with shelf unit fitted alongside for storage or decorative purposes. Sail has the facility for being remotely controlled by means of the small brass infra red control unit which is supplied with each hood.

- 6 speed electronic with remote control unit.
- Metal grease filter.
- 4 halogen lamps (2 on hood, 2 on shelf unit).
- 150mm (6") dia. duct spigot supplied.
- Charcoal filter required if recirculating.

Available in:

90cm + 90cm shelf.

Finish: Stainless Steel with Gold coloured panel.

igloo

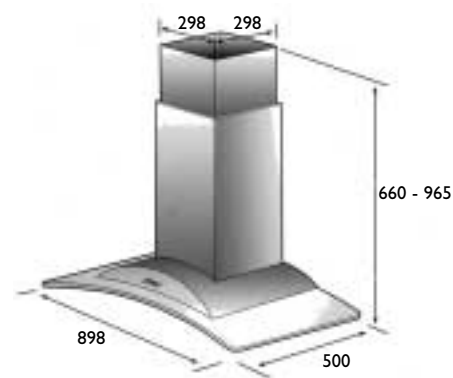

Igloo features twin tangential fans combining high performance and quieter running. The toughened glass beautifully crafted beneath the classic steel structure offers stylish and innovative design.

- 4 speed selector switch.
- Quick release, washable metal grease filter.
- 2 x 20w halogen lamps.
- 150mm (6") dia. duct spigot supplied.
- Type 160 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

Stainless Steel
with glass arc.

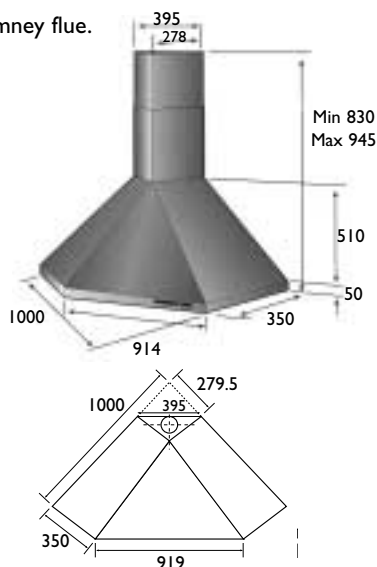

tempest corner

With the Tempest features and multi-facet design, Tempest Corner, as one might expect, fits over the hob, which is placed across the corner of the kitchen (see line drawing).

- 4 speed selector switch.
- Quick release, washable metal grease filters.
- 2 x 20w halogen lamps.
- 125mm (5") dia. duct spigot supplied.
- 2 x type 100 charcoal filters required if recirculating.
- Adjustable chimney flue.

Available in:

Stainless Steel
in the one size
as illustrated.

typhoon

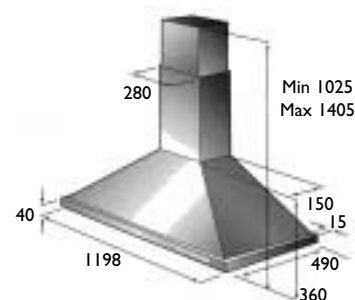

The sheer power of the Typhoon can match commercial installations. The high performance is achieved using low noise double tangential fans driven by slow start motors on special silentbloc rubber mountings.

- 4 speed electronic touch control.
- Quick release, washable metal grease filters.
- 2 x 20w halogen lamps.
- 125mm (5") dia. duct spigot supplied.
- Type 150 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

120cm width.

Finish: Stainless Steel, Black or White.

tempest

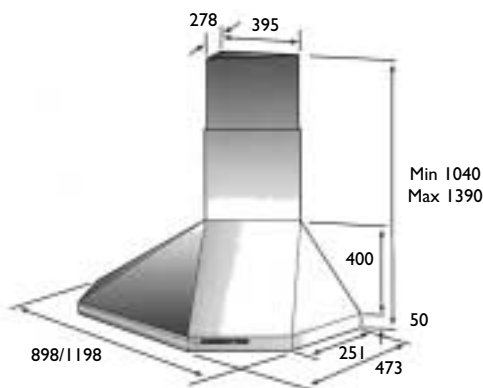

The truly attractive multi facet design with triangular chimney and the inspiring effect of the halogen lighting is simply stunning.

- 4 speed electronic touch control.
- Quick release, washable metal grease filters.
- 2 x 20w halogen lamps.
- 125mm (5") dia. duct spigot supplied.
- Type 150 charcoal filter required if recirculating 90cm version.
- 2 Type 100 charcoal filter required if recirculating 120cm version.
- Adjustable chimney flue.

Available in:

90cm or 120cm width.

Finish: Stainless Steel.

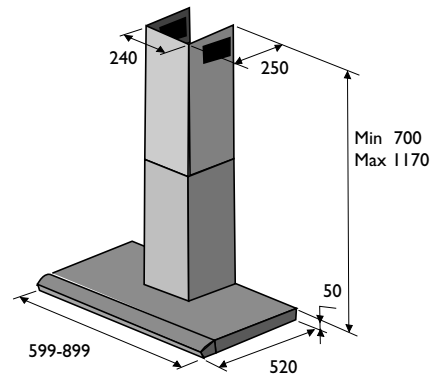

milano

Our quest to match the designers requirements for aluminium in the kitchen, is brought to you in this stylish new model. Milano is formed in aluminium and has a toughened glass top to give strength and durability.

- 4 speed 'soft touch' controls.
- Quick release metal grease filter.
- 2 x 20w halogen lamps.
- 150mm (6") dia. duct spigot supplied.
 - Type 195 or type 252 charcoal filter required if recirculating.
 - Adjustable chimney flue.

Available in:
60cm and 90cm widths.
Finish: Aluminium.

cove

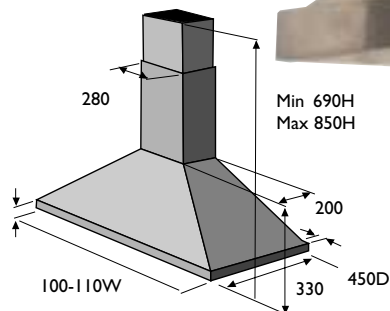

Cove stainless steel chimney hood has been designed to enhance and compliment 1100mm and 1000mm wide professional style range cookers. Fitted with our BI60T-3. This model can also be ordered as a special, finished in colours as our County Canopy hoods. The specification of Cove can be further enhanced, by requesting it with our BI60RM Remote Motor hood. (see page 16, BI60RM for specification).

- 3 speed controls.
- Quick release metal grease filters.
- 2 x 40W hob lamps.
- 125mm (5") dia. duct spigot.
- Available with BI60RM GR giving an airflow of 1000M3h (see BI60RM GR for spec).

Available in:

100cm or 110cm widths.

Finish: Stainless Steel, Green, Blue, Black, Cream, Maroon & White

tuscan

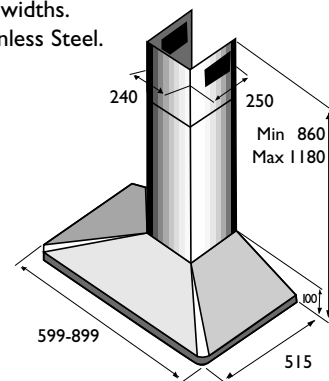

The Tuscan chimney hood is proof of elica's continuing inventiveness. In this model we have found the perfect balance between cost and performance, whilst maintaining traditional elica quality. The result is a product featuring excellent design, modern lines and up-to-date technology.

- 3 speed 'soft touch' controls.
- Quick release metal grease filter.
- 2 halogen lamps.
- 125mm (5") dia. duct spigot supplied.
- Type 195 or type 262 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

60cm and 90cm widths.

Finish: Stainless Steel.

glacier

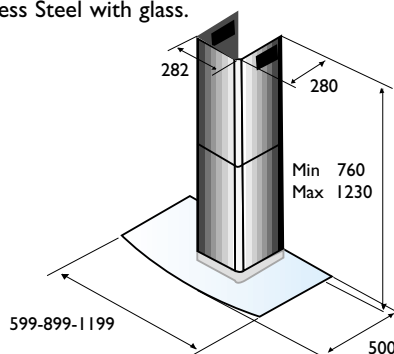

We are pleased to introduce Glacier, bringing together another example of the aesthetically pleasing combination, stainless steel and toughened glass. High performance motor and halogen lights ensure that this new hood delivers value for money, high tech extraction and pleasing designs.

- Toughened glass.
- 3 speed 'soft touch' controls.
- Quick release metal grease filter.
- 2 halogen lamps.
- 150mm (6") dia. duct spigot supplied.
- Type 195 or type 262 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

60cm, 90cm or 120cm widths.

Finish: Stainless Steel with glass.

tonda

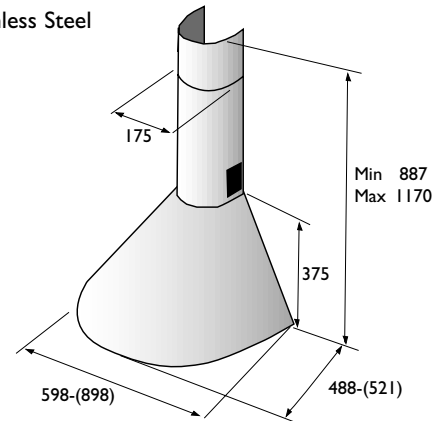

This semi-round chimney hood provides the designer's answer to the fashionable "Curved" look for the kitchen.

- 4 speed slider switch.
- Quick release, washable metal grease filters.
- 2 x 40w hob lamps.
- 125mm (5") dia. duct spigot supplied.
- Pair of type 200 charcoal filters required if recirculating.
- Adjustable chimney flue.

Available in:

60cm and 90cm widths.

Finish: Stainless Steel

zephyr

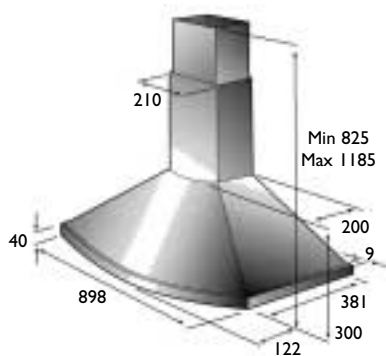

This unique softly curved shape precisely matches the mood created by today's leading kitchen designers.

- Variable slider switch.
- Quick release, washable metal grease filter.
- Fluorescent lamp.
- 125mm (5") dia. duct spigot supplied.
- Type 150 charcoal filter required if recirculating.
- Adjustable chimney flue.

Available in:

90cm width.

Finish: Stainless Steel.

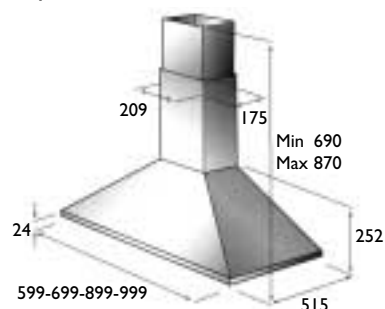

tamaya

Attractive simple design presenting pleasing angles to offset the kitchen cabinets. The most modern motor fan design provides adequate ventilation of the average kitchen, using the minimum of energy.

- 3 speed slider switch.
- 2 x 40w hob lamps.
- Quick release, washable metal grease filters.
- 125mm (5") dia. duct spigot supplied.
- Pair of type 200 charcoal filters required if recirculating.
- Adjustable chimney flue.

Available in:

- 60cm & 90cm widths in White, Black & Stainless Steel.
- 70cm & 100cm widths in Stainless Steel only.

camino

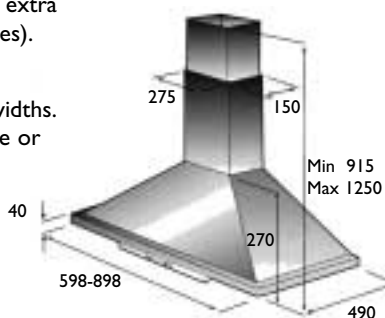

The beautiful high powered Camino continues to be popular with both designers and users. The chimney design allows for many variations to be produced giving a truly unique feature for your kitchen. Camino features a retractable lighting panel housing the controls and fluorescent lamp.

This retractable panel allows the lamp to be positioned for the optimum effect.

- 4 speed slider switch.
- Quick release, washable metal grease filters.
- Fluorescent lamp.
- 125mm (5") dia. duct spigot supplied.
- Type 150 charcoal filter required if recirculating.
- Adjustable chimney flue.
- Stainless Steel spice racks and back plate available as an optional extra (see accessories).

Available in:

60cm and 90cm widths.
Finish: Black, White or Stainless steel.

countess

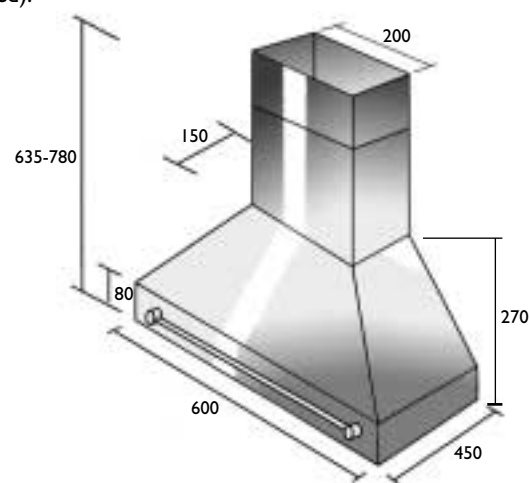

Stylish and powerful canopy hood in the style and colours to enhance the 55 & 60cm range cookers. Fitted with either a brass or chrome bar to complete the traditional look.

Available in 3 variations. (see 'built-in' section for full specification on motors fitted).

- Countess with BI52-3 single motor hood with disposable grease filters.
- Countess twin with BI60T-3 powerful twin motor hood with washable metal filters.
- Countess remote, fitted with built-in unit and Stainless Steel encased remote motor, can be ordered as a special.
- Brass bar fitted as standard on coloured countess.
- Chrome bar fitted as standard on Stainless Steel.
- Charcoal filter required if recirculating.
- Ducting required if ducting to outside (see ducting selection at back of brochure).

Available in:

Black, Cream, Maroon, Green, White, Blue, Stainless Steel.
60cm wide.

DR Rainbow colour
match system

All four models benefit from the elica double action door system. This system allows doors of a minimum height of 400mm, plus if required, an overlap at top or bottom. The opening or closing of the door also switches the power for the fan and the lamps both on and off, facilitated by the internal microswitch.

Elica Integrated models adjust to suit wall units from 270mm to 370mm deep and can be used in either the ducted or recirculating mode. Ducting from top or rear (see line drawing).

INT60-3 & INTUHS60-5 have the provision for ducting horizontally out from the back within the height of the appliance, using the unique duct connector supplied with these superb models.

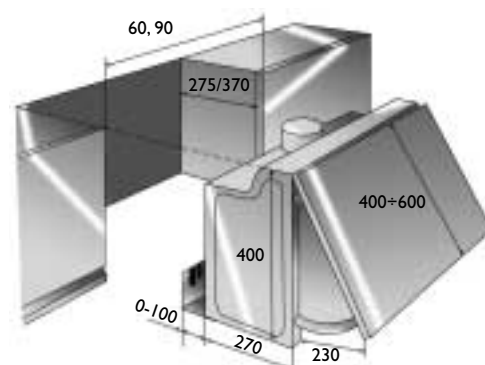

Both the INT60-3 and INTUHS60-5 have cassette-style quick release filters that fit easily into the dishwasher.

INTUHS60-5

- Twin motor, high performance hood.
- 125mm (5") dia. ducting required or type 150 charcoal filter.
- Energy saving fluorescent lamp.
- 4 speed slider switch.
- Quick release metal grease filters.

Finish: Neutral Grey

For all models.

INT60-3

- Single high performance motor.
- 100mm (4") dia. ducting required or type 150 charcoal filter.
- Twin 40w hob lamps.
- 3 speed slider switch.
- Quick release metal grease filters.
- Available in Neutral Grey.

INT60-2

- Single motor.
- Twin 40w hob lamps.
- Disposable grease filter.
- 100mm (4") dia. ducting required or type 34 charcoal filter.
- Available in White, Brown or Grey.

INT90-2

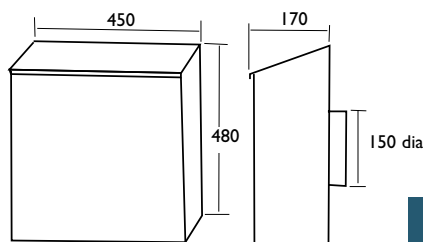

- Single motor.
- 100mm (4") dia. ducting required or type 34 charcoal filter.
- Twin 40w hob lamps.
- 3 speed slider switch.
- Disposable grease filter.
- Available in Neutral Grey.

The Elica Built In models are designed for fitting into the bottom surface of specially built canopies, 650mm to 800mm above the cooking hob.

These quality models can either be ducted to an outside wall (see Elica Freeflow Ducting leaflet), or may be used in the recirculating mode (a charcoal filter to be ordered). When used in this mode, provision must be made in the canopy for clean air to be vented back into the room.

Remote Motor

BI60RM

Our new canopy hood offers a wider choice of powerful ventilation and less noise in the kitchen. Designed for connection to the remote motors (supplied), this extractor can be fitted into purpose built canopies, or several models from our range of hoods. The remote motors can be fitted externally or in the roof space as required. The powerful motors are fitted into an attractive stainless steel casing.

- Remote motor.
- Airflow to 1000 M3h..
- Variable speed control.
- Quick release, washable metal grease filters.
- 2 x 20w halogen lamps.
- 450mmW x 480mmH x 170mmD Stainless Steel encased motor unit.
- Ducting version only.
- 150mm (6") ducting connectors supplied.
- Cooker Hood size as BI60-3.

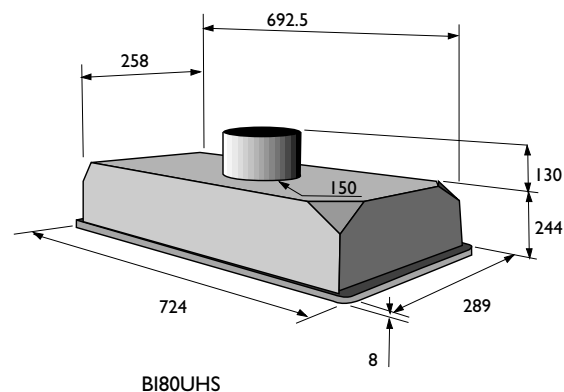

Available in Grey.

BI60RM

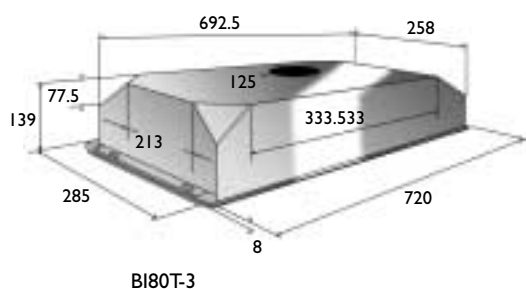

BI80UHS

- Twin tangential high performance fans.
- 2 halogen lamps illuminate the cooking area.
- Quick release, easy clean metal grease filters.
- 150mm (6") duct connector supplied.
- Type 200 charcoal filter required if recirculating.
- Available in Black or Grey.

BI80T-3

- Powerful twin motor Built In hood.
- Quick release easy clean metal grease filters.
- 2 x 40 watt hob lamps.
- 125mm (5") duct connector supplied.
- 2 x type 48 charcoal filters required if recirculating.
- Available in Black or White.

BI60-3

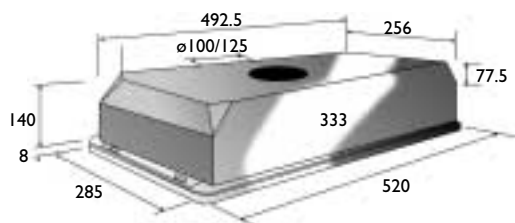

- Single motor Built In hood.
- Quick release easy clean, metal grease filters.
- 2 x 40 watt hob lamps.
- 100mm (4") duct connector supplied.
- Type 48 charcoal filter required if recirculating.
- Available in Black or White.

BI60T-3

- Twin motor Built In hood.
- Quick release easy clean, metal grease filters.
- 2 x 40 watt hob lamps.
- 125mm (5") duct connector supplied .
- 2 x type 48 charcoal filter required if recirculating.
- Available in Black, Grey, White and Stainless Steel.

BI52-3

- Single motor Built In hood.
- Painted metal air inlet tray with disposable grease filter.
- 2 x 40 watt hob lamps.
- 100mm (4") duct connector supplied.
- Type 48 charcoal filter required if recirculating.
- Available in Black, White or Grey.

For models: BI52-3, BI60-3, BI60T-3.

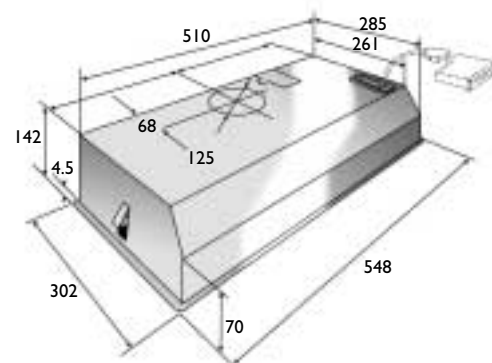

BI60DL

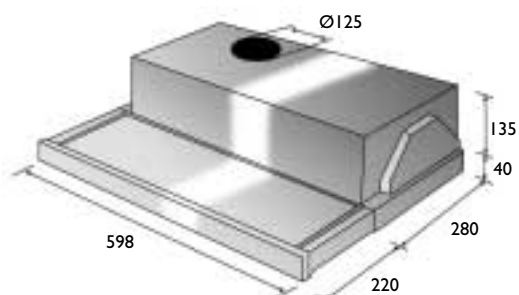

Special feature: This model can be remotely controlled if desired, by means of the de-mountable switch unit and 3 metre cable, allowing the controls to be placed in a worktop plinth or anywhere up to 3 metres away for easy access and use.

- Powerful twin motor.
- De-mountable switch and 3 metre control cable.
- Quick release easy clean, metal grease filters.
- Fluorescent lamp.
- 125mm (5") duct connector supplied.
- Type 150 charcoal filter required if recirculating.
- Available in Stainless Steel.

SA 60-7 G

- Single motor hood with slideaway panel.
- Quick release easy clean metal grease filters.
- 2 x 40 watt hob lamps.
- 125mm (5") duct connector supplied.
- Type 48 charcoal filter required if recirculating.
- Front panel may be removed and replaced with furniture light pelmet to match kitchen units.
- Available in Grey.

Elica freestanding cooker hoods, can be installed against the wall or directly below a cabinet above the cooker hob.

Designed to compliment and enhance your kitchen facilities and fittings.

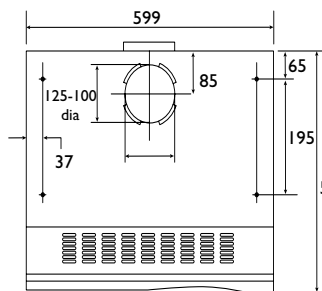

A wide choice of models, sizes and colours available.

concorde

- Single motor hood.
- Slimline design 130mm high.
- Adjustable tinted visor.
- 3 speed slider switch.
- 2 x 40w hob lamp to illuminate the cooking surface.
- Disposable grease filter.
- Includes type 190 charcoal filter.
- 100mm (4") ducting spigot included.
- Can be ducted from the top or rear.

Available in:
90cm or 100cm
widths.
Brown or
White.

chic

- single motor hood.
- adjustable tinted visor.
- 3 speed slider switch.
- 40w hob lamp to illuminate the cooking surface.
- disposable grease filter.
- includes type 50 charcoal filter.
- 100mm (4") ducting spigot included.
- can be ducted from the top or rear.
- available in Black, Brown or White.

Available in 60cm width.

Specially made hood (featuring 2x BI60DLSS, remote switched motor units).

DR Rainbow colour
match system

Any colour, swatch
or fabric sample supplied
can be matched.

Should your requirements differ from those from our vast selection of designer hoods, canopies and furniture hoods, backplates, colours and finishes. Then from your sketch, drawing, colour swatch or RAL number we would be pleased to quote and fabricate a hood to your own design, size, colour or finish.

Just fax a sketch or drawing of your requirements and within a short space of time we can offer a quotation.

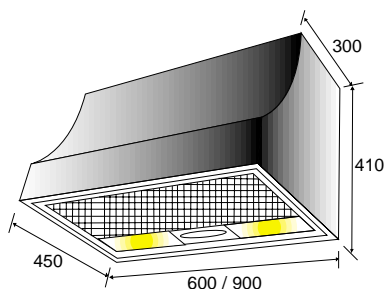

We can match any colour, swatch or fabric sample supplied, either colour coding a model from our stock or a special hood fabricated to your design.

A choice of Brass, Chrome or Stainless Steel bars can be added to compliment the finished product if desired.

Our Copper & Brass canopies are both practical and Beautiful. As these canopies are hand made in the styles as illustrated, each model will be unique in finish and detail. Canopies are finally coated with a clear hard lacquer to protect the natural material and to enhance your home for years to come.

All models are available in 60cm or 90cm widths. Fitted with our BI52-3 as standard. Twin Motor or Remote Motor hoods can be fitted. Ask for a quotation.

Charcoal filters or
Ducting required.

hammered copper or brass (HC or HB)

antique copper rose (ACR)

brass rose canopy (BRC)

rippled copper (RCC)

The opportunity of choice between the various models, sizes and finishes is still further extended by our range of accessories.

spice racks

These are not suitable for all models, but may be used singly or in pairs for practical use, or simply to enhance the overall effect.

Spice racks 60cm, 90cm or 120cm.

Finishes available: Stainless Steel, Black or White.

back plates

These may be installed between the bottom of the cooker hood and the worktop to provide a splash back, or behind some models in this range to further enhance the installation.

Backplates are 650cm or 750cm high and available in widths, 60cm, 70cm, 90cm, 100cm, 110cm and 120cm.

Finish: Stainless Steel bonded to MDF.

Special sizes available to order.

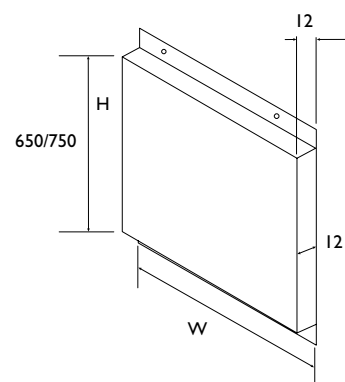

Chrome/Brass Utensil Bars

120cm long with fixing bracket may be cut to required length.

Chrome/Brass Utensil Hooks

Our set of 5 hooks designed for use with our utensil bars.

Quality 5-piece Stainless Steel utensil set.

plinth heaters

Built in electric fan heater designed for installation in standard kitchen furniture plinth line. 1 Kw or 2Kw heat settings. Neon indicator light to show heat setting selected.

Overall size of front panel: 470mm x 120mm. Cut out size: 440mm x 95mm. Depth 240mm.

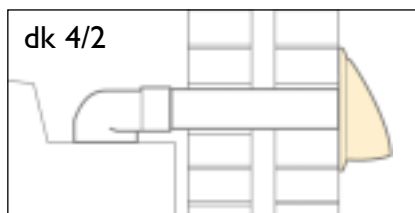

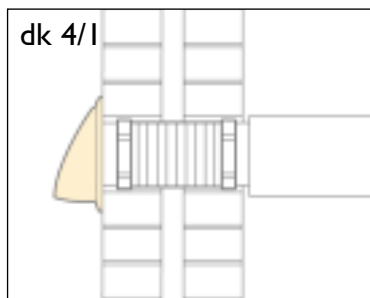

Finishes available: Stainless Steel, Brown or White.

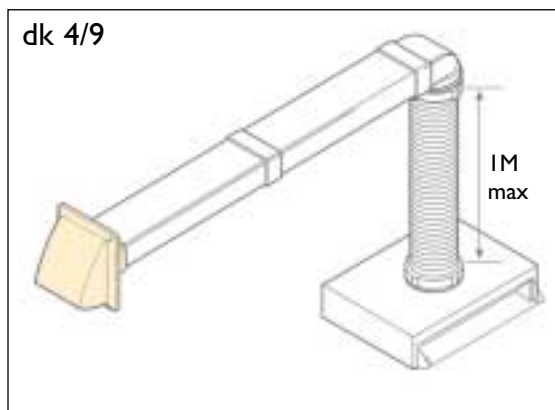

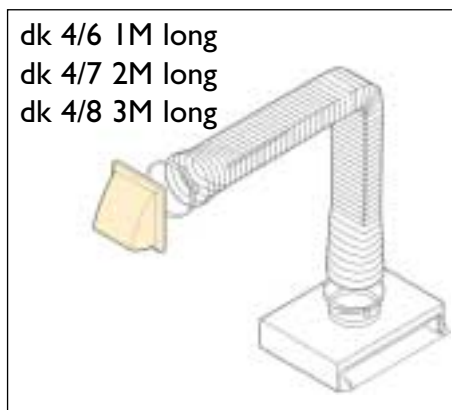

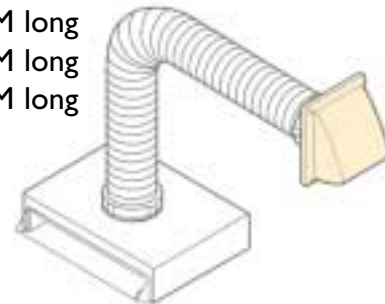

freeflow ducting kits

One of these ducting kits will be ideal for most situations. They are designed for cooker hoods with 100mm, 125mm or 150mm dia. ducting outlets.

100mm (4") nominal

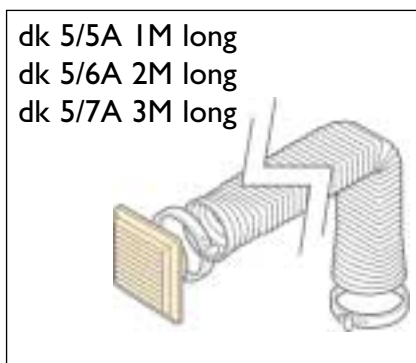

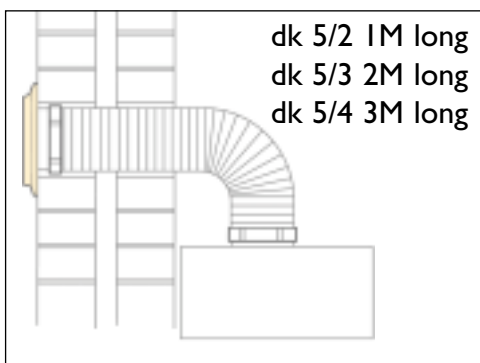

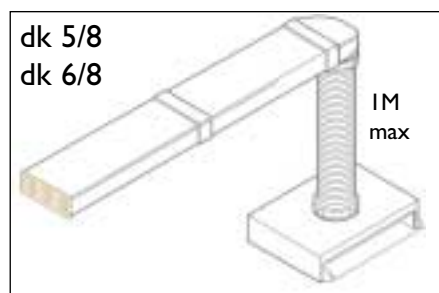

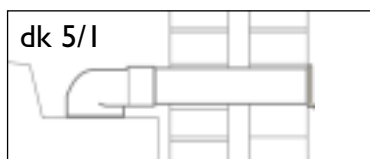

dk 4/3 1M long
dk 4/4 2M long
dk 4/5 3M long

Return air box

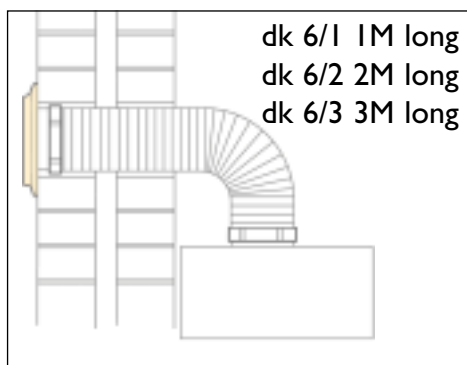

125mm (5") nominal

IMPORTANT

The ducting chosen must be at least the same area as the spigot on the cooker hood. Spigot diameters will be 100mm (4") lower performance, 125mm (5") high performance 150mm (6") for very high performance hoods.

150mm (6") nominal

The use of smaller than the recommended ducting will adversely effect the designed performance as regards airflow and noise levels.

Please ask to see separate Freeflow Ducting leaflet for a complete range of ducting kits and components.

worktop ventilators – metal

These may be fitted into worktops, plinths etc to aid ventilation of appliances.

Cut-out size 464 x 66mm.

Finishes available: Aluminium, Brass, Brown or White.

Specifications, M³/hr, DBA etc. are factual and verified by the manufacturer Elica Spa following exhaustive tests according to the European directive IEC61591.

The same commitment, care and expertise have gone into selecting 'elichef' cooking products, as our elica cooker hoods. We at D R Cooker Hoods Ltd are proud to present 'elichef'. A carefully specified range of cooking products to enhance our elica cooker hoods and accessories.

Elichef built in appliances have been selected from all corners of Europe, including the U.K. Hi-Tech manufacturing techniques, environmentally friendly manufacturing practices and innovative ideas ensure that all elichef products represent high quality, whilst offering value for money.

Every type of cooking is catered for, fan, conventional, wok cooking and ceramic hi lite hobs. Our multifunction and double ovens feature cooling fans, ventilating the doors, together with heat reflective glass, this ensures exterior surface temperatures are kept well below the statutory limits.

All our products carry CE approvals and the safety and performance of each model has been in the forefront of our thoughts when specifying 'elichef' cooking appliances.

We trust that you will agree, our selection of 'elichef' products have been cleverly designed to coordinate well with each other and blend with our elica cooker hoods.

DOUBLE MULTIFUNCTION OVEN

EFDMO900

Our eye level double multifunction oven offers a variety of cooking functions. The main oven is multifunction featuring 8 full cooking functions. The top conventional oven also houses a grill. A truly versatile double oven.

Bottom Oven - Main oven.

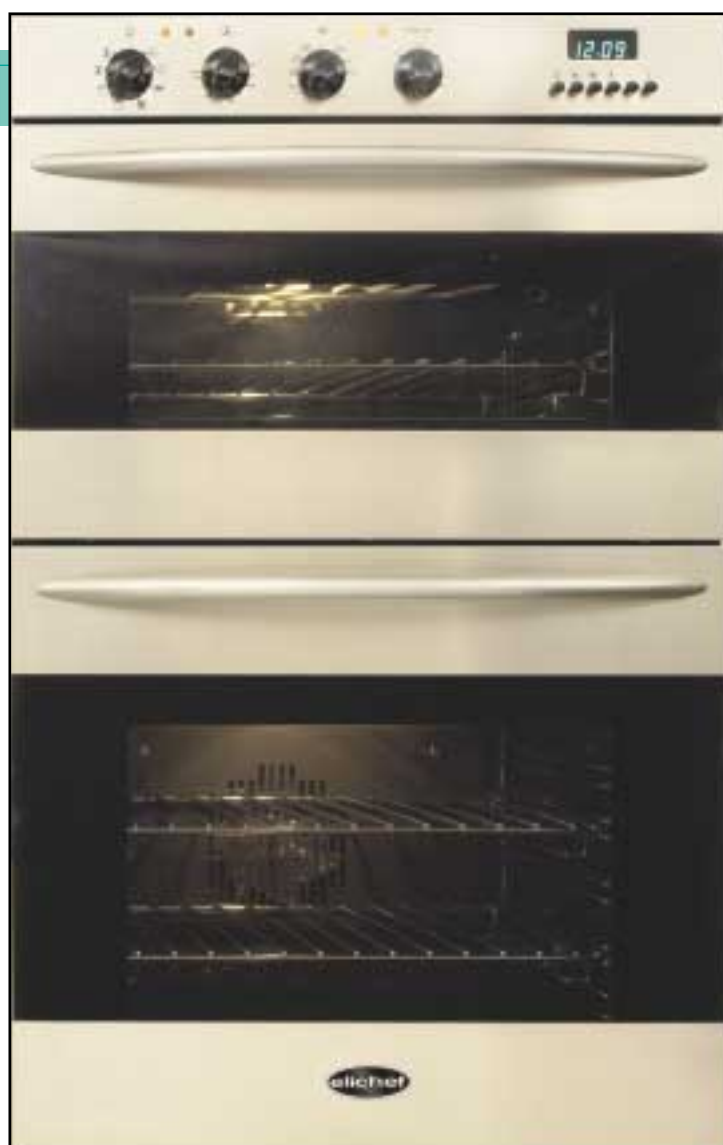

- Fully programmable (LED clock) multi function oven.
- Thermostatically controlled.
- Cooling fan.
- Triple glazed Cool door.
- Light only.
- Defrost (cold fan only).
- Conventional oven.
- Full fan oven.
- Half width grill.
- Full width grill.
- Top element and fan.
- Bottom element and fan.
- Drop down grill element for ease of cleaning.

Top Oven - Conventional

- Light.
- Triple glazed Cool door.
- Conventional oven.
- Variable grill.
- Top element only.
- Bottom element only.
- Drop down grill element for ease of cleaning.

Finish: Stainless Steel, Black or White

Aperture required: 898H x 560D x 560W

SINGLE MULTIFUNCTION OVEN

EFSMO596

Top of our range single ovens EFSMO596 has 8 functions to satisfy the most discerning cook. Flexibility using the wide variety of cooking options.

- Fully programmable (LED clock) multi function oven.
- Thermostatically controlled.
- Cooling fan.
- Triple glazed Cool door.
- Light only.
- Defrost (cold fan only).
- Conventional oven.
- Full fan oven.
- Half width grill.
- Full width grill.
- Variable grill.
- Top element and fan.
- Drop down grill element for easy cleaning.

Finish: Stainless Steel, Black or White.

Aperture required: 585H x 560W x 560D.

SINGLE FAN OVEN

EFSSFO188

True fan oven cooking with even temperature throughout the oven. Reduced cooking time, fast warm up, Variable grill.

- Fully programmable (LED clock) fan oven.
- Full fan oven - fast warm up..
- Light.
- Defrost.
- Variable grill.
- Cool door, inner reflective glass.
- Fan forced cooking.

Finish: Stainless Steel, Black or White.

Aperture required: 580H x 560W x 560D.

SINGLE CONVENTIONAL OVEN

EFSCO438

Traditional cooking utilising heat from both top and bottom elements.

- 60 minute minder.
- Light.
- 4 Functions.
- Bottom element only.
- Top element only.
- Conventional cooking (top & bottom elements)
- Cool door, inner reflective glass.
- variable grill.

Finish: Black or White.

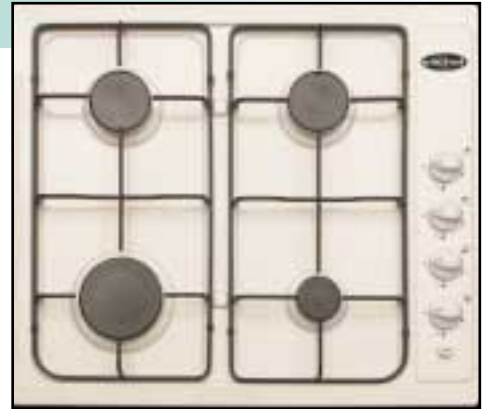

Aperture required: 580H x 560D x 560W.

GAS HOB

EFGSH430

- 4 Burners 2x 1.75Kw, 1x 3Kx and 1x 1Kw.
- Electronic ignition.
- 2 Piece black enamelled pan supports.
- Slimline 30mm depth.
- LPG injectors available.
- Side controls.
- Aperture required: 560W x 480D.
- Finish: Stainless Steel, Black or White.

GAS HOB

EFGSH530

- 5 Burners 2x 1.75Kw, 1x 3Kx, 1x 1Kw and 1 Triple Crown Wok Burner.
- Enamelled pan supports.
- Electronic ignition on control knob.
- Aperture required: 560W x 480D.
- LPG conversion jets supplied.
- Finish: Stainless Steel.

ELECTRIC HOB

EFELH430

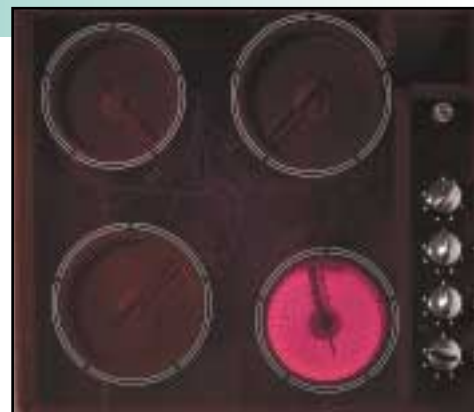

- 4 Cooking zones 2x 1Kw 2x 2Kw.
- Slimline 30mm depth.
- Power on light.
- Heat residual light.
- Aperture required: 560W x 480D.
- Finish: Stainless Steel, Black or White.

FRAMELESS HI-LITE HOB

EFFCH460

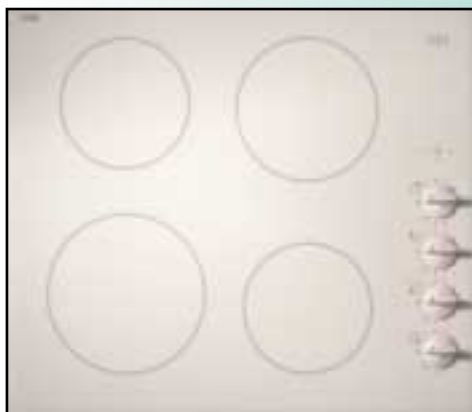

- 4 Radiant Zones.
- Ground edge glass.
- Sealed controls for easy cleaning.
- Residual heat indicator.
- Temperature limiter safety system.
- Slimline depth, installs within a standard worktop.
- Aperture required: 550W x 480D.
- Finish: Black Ceramic Glass with 4 black and 4 white control knobs, to suit most installations.

CHAMFERED EDGE CERAMIC HOB

EFFCH544

- 4 Rapid response ribbon heaters. 2x1200W, 1x1400W, 1x1800W.
- Chamfered glass for sophisticated appearance.
- High transmission glass-ceramic for improved cooking efficiency.
- Side controls, 4 rotary control knobs.
- Residual heat indicator light.
- Aperture required: 560W x 490D.
- Finish: Black or White Ceramic Glass.

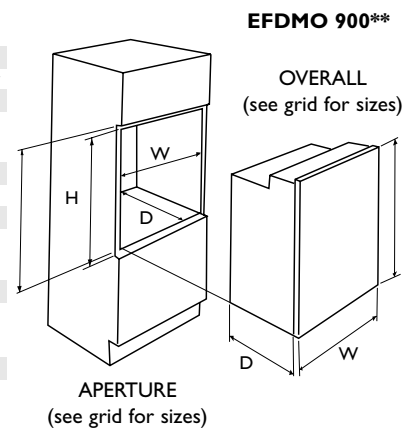

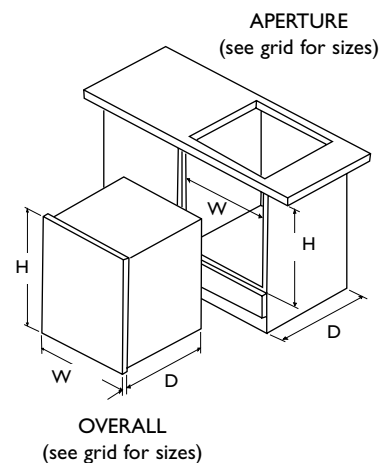

FRAMELESS TOUCH CONTROL HOB

EFTCC545

- 4 Rapid response ribbon heaters. 1x700W/1700W dual circuit element. 1x1400W and 2x1200W.
- Touch controls.
- Childproof lock indicator.
- Hob-hot warning feature.
- Aperture required: 560W x 490D.
- Finish: Black Ceramic Glass.
