MODEL	RATING KW	DIMENSIONS	TOTAL WEIGHT (Kg)
CSH12A	1.7/1.0	H.730mm x W.540mm x D.170mm (mounted)	79
CSH18A	2.55/1.5	H.730mm x W.765mm x D.170mm (mounted)	116
CSH24A	3.4/1.75	H.730mm x W.990mm x D.170mm (mounted)	152

ELNUR combined storage heaters offer the advantage of a storage heater and convector heater in one unit. The convector can be used to supplement the heat provided by the storage heater, or it can be used when the storage heater is switched off.

Storage heaters offer comfortable warmth throughout the day, while the convector supplies instant heat only when it's needed.

The controls are easily accessible with clear indication of function and setting.

Installation is simple, especially when replacing an existing storage heater.
