

Every Signal Matters.

The new Fire Alarm Input Module uses RF-Link wire-free technology to connect third-party devices, such as sprinkler systems, to any Espire alarm system, triggering instant audible warning. Ideal for HMOs and social housing, it features a 10-year lithium battery for easy installation.

FEATURES

- Compatible with RF-Link Enabled Espire Alarms
- Volt-Free Input Switch to Sound Alarms
- 10 Year Sealed Battery
- Standard 1-Gang installation surface box included

ES1MODRF - Espire Input Module Powered by a 10 year battery
