

**WE'VE GOT AFFORDABLE & EASY FLY CONTROL ALL BOXED OFF
THE EASY, LOW-COST WAY TO ENSURE FOOD-HYGIENE COMPLIANCE**

WHY THE NOFLI IS THE PERFECT FLY CONTROL SOLUTION FOR TODAY'S MARKET

Its minimalistic, contemporary design breaks the mould and changes the way we think about fly control forever with glue-board technology.

SAFE. SILENT. DISCREET.

Hygiene – No spread of bacteria. The glue board technology safely captures flies whole.

Catch - The NoFLi patented open design, allows for greater UV light output, resulting in a ferociously effective catch. Optimum UV light output of 365 Nannometres – proven to be effective at attracting insects.

Quality – Manufactured in the UK from quality components, the NoFLi comes with a 3-year warranty.

Price – competitive in the market due to the reliability of product.

Looks – A contemporary, minimalist design and a choice of facias means that the NoFLi can discreetly sit in front of house areas.

WHY THE CATERING MARKET HAS LOST ITS FAITH IN ZAPPERS

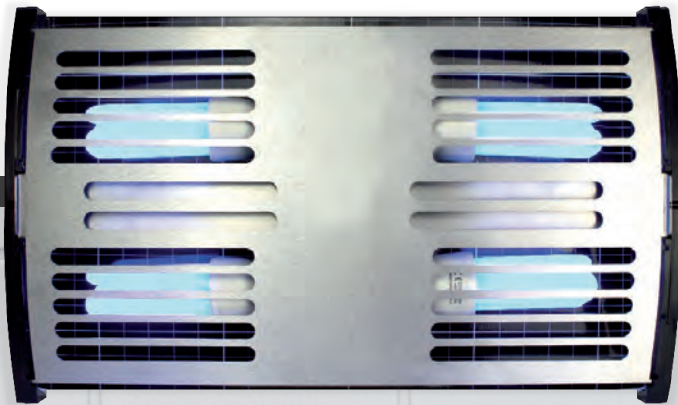

Hygiene – The Zapper's out of date technology often causes flies to explode on impact, triggering bacteria to spread around the surrounding area.

Catch - Zappers are often enclosed in a cheap, bulky case which not only makes it an eyesore, but reduces the overall UV light output.

Fire Hazard – Smouldering fly parts falling on flammable material and poor manufacturing quality has meant an increase of fires caused by Zappers over the last few years.

Price – Cheap Zappers are not manufactured for reliability and longevity making them more expensive in the long-run.

Looks – Whether enclosed or not, the out-of-date design means they are ugly wherever they are sited.

NOFLI LARGE

A NEW! Cost effective, hassle-free way of ensuring your fly control programme is effectively managed

No-Fli make it easy for you. With a product boasting a 3 year guarantee and a unique and impressive approach to customer service, worrying about flies and hygiene will be a thing of the past.

Our care plan packages mean that you are provided with the units you need as well as bulbs and glue boards. We will then send you replacement bulbs and glue boards when you need them. We'll even send you a discreet reminder to let you or your staff know it's time!

NOFLI STANDARD

Stay compliant. Stay hygienic. Stay ahead of the game with No-Fli
