Making Electricians Smile!

Type B HP RCD

Fitting inverter heat pumps? This is the RCD for the job. Unlike a standard Type B device, this Type B HP RCD is rated up to 20kHz, providing the enhanced protection required for the high-frequency residual currents that can come with heat pump installs.

- 63A
- 10kA
- 2-Pole
- Type B HP
- 5 Year Guarantee

COMPATIBLE WITH OUR **SINGLE PHASE + TPN RANGES**

- Detects AC, pulsating DC, and smooth DC residual fault currents.
- Distinguishes normal high-frequency leakage from genuine faults.
- Compact 2-module design takes up less space on the board.
- Tested to operate at frequencies greater than 20kHz.
- Maintains 150mA tripping threshold above 1kHz.
