

# XLERATOR

the FASTEST hand dryer in the world...

Xlerator Chrome

Xlerator White

Perhaps the most frustrating aspect of washroom practice is the time consuming ritual of standing waiting for your hands to dry. Surely there is a better way?

The **XLERATOR** hand dryer delivers 3-times-faster hand drying power than leading competitors. User's hands will be completely dry in only 10 to 15 seconds. The **XLERATOR** hand dryer is the result of a two-year research project, in which we studied every detail of the hand-drying process, with countless hours of field testing, listening to what users had to say, and, as a result, developed the patented technology behind the best hand dryer in the business!
