

# FIREGUARD LOFT BRACE

The new loft brace from JCC is designed as a simple cost effective solution to ensure suitable airflow is achieved around a luminaire installed in a loft space.

The loft brace also protects the luminaire from accidental damage by objects placed in the loft space.

Available in two sizes to fit 400mm and 600mm centered joists.

JC94020 - 400mm

JC94021 - 600mm

Supplied flat packed.

Easy construction.
