

Commercial  
Shallow Recessed Downlights  
TC-S 7W and 9W

Read these instructions before commencing installation & retain them for future reference.

This fitting for the main part, has been manufactured from metal materials. The fitting therefore includes an earth connection. Product must be earthed.

Fitting Instructions:-

It is recommended that luminaires are installed and fitted by a qualified electrician. The installation of this product must comply with the current edition of the IEE wiring regulations BS7671. For luminaires to be installed in bathrooms, saunas or swimming pool complexes special attention should be paid to section 601, 602 & 603 of the above standard. To install fitting loosen 3 x clip retaining screws, insert fitting as drawing shows then re-tighten screws.

IMPORTANT USER ADVICE

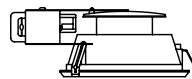

Always switch off mains supply before servicing, fitting or changing lamp. Check the lamp is correct for the application, including its voltage and wattage.

Ensure that the lamp is correctly located in the lampholder. Switch on electricity at mains.
