

## EMLED812ST

## High Lumen LED Emergency Bulkhead

Our new High Lumen Emergency Bulkhead delivers powerful and reliable emergency lighting performance designed to provide up to 1500lm during power failure events. Featuring multi-power selectable 8W / 12W output, this non-maintained unit ensures optimal visibility when it is needed most. Constructed with a durable polycarbonate (PC) body and cover, the fitting is rated IP65, making it suitable for both indoor and outdoor installations in challenging environments. Available with manual test and self-test options, it supports easy compliance with emergency lighting regulations and reduces maintenance effort. Ideal for commercial, industrial, and public sector applications where safety and reliability are essential.

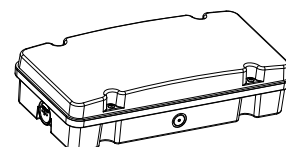

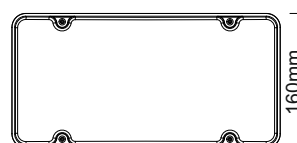

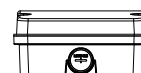

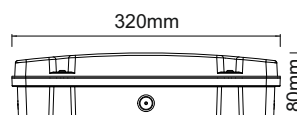

Applications: emergency escape routes, stairwells, corridors, warehouses, car parks, loading bays, public buildings etc.

### Features & Benefits:

- Multi-power selectable: 8W/12W
- Polycarbonate (PC) body and diffuser
- IP65 and IK8 Rated
- Manual and self-test
- Non-maintained
- Evenly diffused light output
- Resistant to shock and vibration
- Withstands temperatures of 0°C to +40°C
