

LTSPSF60

Surface Mounted Frame for LTSP60CCT Panel Lights

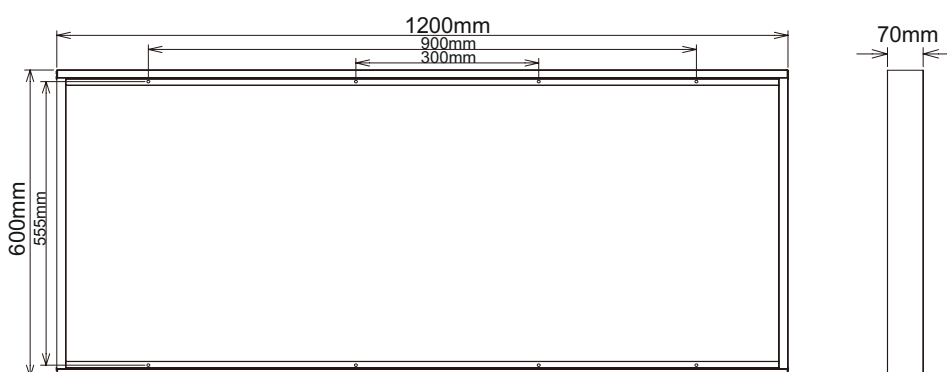

The Surface Mounted Frame is specifically designed for housing the LTSP60CCT 1200x600mm LED panel lights. The LTSPSF60 provides a secure and clean installation solution where recessed mounting is not feasible. Ideal for solid ceilings, this frame allows for the easy surface installation of LED panels without compromising on aesthetics or performance.

Features & Benefits:

- Compatible Panel Size: 1200mm x 600mm (LTSP60CCT)
- Mounting Type: Surface mount – suitable for solid ceilings
- Installation: Frame assembles with four aluminum profiles; panel slides in before final side is fixed
- Allows easy access for maintenance or replacement of LED panels
- Applications: Commercial offices, educational institutions, healthcare facilities, retail environments
