

LED LITE™

Energy Saving LED

LED Double-Ended Tubular Striplamp

The LEDLite LED Strip lights are the smart and cost effective choice when changing your current strip lights or designing your lighting layout from scratch. The strip lights are the equivalent of a 60W standard strip lamp and are virtually maintenance free.

They are widely used for concealed lighting such as under cabinets or cupboards in kitchens and clear types are often used in picture lighting.

Features:

- Voltage Range: 220-240VAC
- Nom. Watts: 221mm - 4W
284mm - 6W
- LED Colour: 3000k Warm White
- Clear or Opal cover
- Not dimmable
- 2 year guarantee
- Energy Saving up to 80%
- No UV output/Mercury Free
- LTLED221 - Direct replacement with better lumen output than a standard 60W 221mm strip lamp
- LTLED284 - Direct replacement with better lumen output than a standard 60W 284mm strip lamp
