● Electrical:

- **Power Source:** 220-240V/AC
- **Frequency:** 50/60Hz
- **Rated Load:** 14W

● Other specifications:

- **Zero Maintenance**
- **IP Rating:** IP44
- **Working temp.:** -20°C ~ +40°C

EMERGENCY & SENSOR OPTIONS AVAILABLE

Emergency specifications:

- Integral Emergency Inverter
- LEDLite Branded Inverter
- Batteries: Ni-Cd Batteries
guaranteed for 5 years
- Green LED Emergency indicator
- Fully compliant with UK emergency regulations

Sensor specifications:

- Detection Type: Microwave Sensor
- Detection Angle: 360°
- Detection Range: 4-10m (Max)
- Time setting: 1-30 minutes
- Light control: 10LUX ~∞ (Adjustable)
- Working humidity: ≤95%RH

Sensor corridor specifications:

- 10% Light output on stand-by
- Detection Type: Microwave Sensor
- Detection Angle: 360°
- Detection Range: 4-10m (Max)
- Time setting: 1-30 minutes
- Light control: 10LUX ~∞ (Adjustable)
- Working humidity: ≤95%RH
