

**LED LITE™**  
Energy Saving LED

# Solar

## LED Garden Light

**LTSL5R**

**5W LED**

Our new Solar technology has allowed us to develop this range with a higher light output and a more efficient way of changing the light, even in shady or cloudy areas.

The lights have an impressive 5 Watt output punching out 400+/- lumens (comparable to many GU10 lamps). The colour can also be changed with a simple switch on the remote control (included) from warm white to cool white to daylight creating the kind of ambiance you wish.

Being self powered, utilising the daylight to recharge its battery, these fittings need no wiring, no mains power and cost zero to run. It comes complete with an easy to use remote.

# LTSL5R - 5W LED Outdoor Round Solar Lights

Rust-free Design

Large Solar Charging Board

Frosted Acrylic Lampshade

IP65 Waterproof

## Specifications:

Ternary Lithium Battery

Power: 5W

Capacity: 4.0Ah

3h/5h/8h Timer Function

Battery Voltage: 4.2V

Aluminium + PC

CCT Changeable  
WW / CW / DL

Body Colour: Black  
Lampshade: Frosted

IP Rating: IP65

Direct Sunlight  
6 Hours Charging

-20°C ~ +45°C

Lasts 3-5 Rainy Days

## Installation Accessories Available:

- LTSLSPK - Spike for LTSL5 Solar Lights
- LTSLPT - Post Top Base Plate for LTSL5 Solar Lights
- LTSLWB - Wall Bracket for LTSL5 Solar Lights
- LTSLEXT - Extension Pole for LTSL5 Solar Lights
