

LTTFDT 10W Tiltable LED Fire Rated Downlight c/w Plaster Bezel

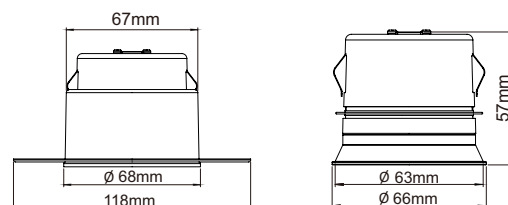

The LTTFDT 10W Smart LED Fire Rated Downlight combines modern smart control with high-performance lighting in a sleek, architectural design. Featuring WiFi and Bluetooth connectivity alongside selectable 3 colour temperatures, it offers flexible illumination to suit a wide range of environments. Designed with a trim-less plaster bezel for a clean, seamless ceiling finish, the fitting is both IP65 rated and fire rated for solid and I-joint ceilings, making it suitable for bathrooms and general interior use. With its robust construction, tiltable light source, and interchangeable reflectors, the LTTFDT provides a versatile and reliable lighting solution for residential and commercial applications.

Features & Benefits:

- Tiltable (up to 22°) for directional lighting
- White & black reflectors included
- Smart control via WiFi & Bluetooth
- CCT selectable: 3000K / 4000K / 6000K
