

THE NEW COMPACT

HAND DRIER

The new **MANROSE®** compact hand drier is a warm air sensor operated drier. The unique compact slim design, will fit unobtrusively into any domestic, office or commercial facility. It is designed for medium usage; such as offices, clinics and catering establishments. They are not recommended for use in public areas subject to vandalism, for example public lavatories and unsupervised areas. The automatic sensor makes the drier more hygienic than the push button model, and is cost effective compared to traditional hand towels.

- ABS thermoplastics one-piece cover.
-  Approved.
- Waved Ni-Cr wire heating element that incorporates a self-resetable thermal cut-off at 95°C.
- Adjustable detection sensor.
- IR Sensor with FC viewing screen.

TECHNICAL

Voltage	220-240V	Total Power	1.100 W
Frequency	50/60 Hz	Motor Power	150 W
Electrical isolation	Class II	RPM	15.000
Dimensions	258 x 145 x 138 mm	Consumption	4.8A
Weight	1.2 kg	Heating element power	950W
Effective airflow	96 m ³ /h 1.600 l/min	Air Temp (at 10 cm distance at 21°C)	47°C
Nominal airflow	110 m ³ /h 1.833 l/min	Drying time	39 sec
Air velocity	85 Km/h	Noise level (at 2m)	60 dB
Protection level	IP23
