

Why Choose MEGAMAN® Energy Saving Lamps

- Benefits:**
- Helps you save up to 80% of electricity
 - Lasts up to 15 times longer = 15,000 hours

- Cost efficient with significant energy saving
- High quality, durability and reliability
- Unique in design, innovative, compact and stylish
- Easy to use and requires lesser maintenance costs

MEGAMAN® Lamps are Certified with the Energy Label

- Benefits:**
- High luminous efficacy with low power consumption
 - Ensures optimal operating life of bulb and illumination output
 - Cohere with international safety standards

MEGAMAN® Lamps are Bodied with the Silicone Sleeve for Extra Protection

- Benefits:**
- First safety energy saving lamps in the world
 - Acts as a safety shield that serves as a protection against shattered glass and poisonous mercury, which are harmful to both humans and the environment
 - Replaces traditional frosting methods, which utilizes non-environmental friendly methods to etch the surface of the glass to provide the frosty look towards the glass cover of conventional bulbs.
 - Helps put a stop to mercury leakage that is toxic when the glass inside the sleeve shatters before proper disposal and recycling of the lamps, which also makes the MEGAMAN® lamps environmental friendly.
 - Provides better light tone with sustained lumen output for brighter lighting

MEGAMAN® Lamps are Equipped with a Patented In-built Cooling Tube

- Benefits:**
- Efficient maintenance of lumen efficacy.
 - Regulates the internal vapour pressure at an optimum level.
 - Heat produced by the lamps are reduced to a minimal, which also equates to increased safety.

MEGAMAN® Lamps Employs Translucent Exterior and Housing

- Benefits:**
- Enhances the light distribution by providing uniformly upwards and all around illumination

MEGAMAN® Lamps are Built with a Recyclable Plastic Lamp Base

- Benefits:**
- Eases the recycling process
 - Rust-proof
 - Prevents harmful soldering on lamp base

MEGAMAN® Lamps contains Mercury Content of less than 3mg – An Industry First

- Benefits:**
- Prevents harm to both humans and the environment

MEGAMAN® Conserves Resources by Using Renewable and Recyclable Materials

- Benefits:**
- All used lamps are recycled at our mercury-recovery plant that prevents unsafe disposal of mercury
 - Using MEGAMAN Energy Saving Lamps = protecting our environment
-
