

KS832 Extension Cards

The KS832 comes configured for 8 exchange lines and 16 extensions but is expandable up to 16 exchange lines and 128 Extensions via Slot in Cards

The Extension Expansion Card **EEC832**

Each card can expand the system by 8 extensions
So to increase the capacity to say 32 extensions you will need 2 cards, to expand up to 64 you will need 4 cards

The Line Expansion Card **LEC832**

Just one card will expand the system to accommodate 8 more lines
So allowing it to reach it's maximum capacity of 16 lines

The Cards are simply plugged into the back of the KS832

To register power down and reboot – couldn't be simpler
