

1) Identification of the substance/preparation and of the company/undertaking:

Product name -  **HallsBeeline Flexible Decorators Caulk**

Application - Available in a cartridge for filling and sealing gaps and cracks where movement occurs, such as those between plasterwork, window frames, doorframes, skirting boards and architrave.

Company - Robert J. Hall Limited (Trading as HallsBeeline), Millshaw Park, Beeston, Leeds, Yorkshire, LS11 0LR.

Contact details - Tel: (+44) (0) 113 2511450 Fax: (+44) (0) 113 2709511

2) Hazards identification: Non Hazardous

3) Composition/information on ingredients: A blend of an aqueous acrylic copolymer emulsion, inorganic extenders, reinforcing fillers and additives including plasticiser and preservative.

4) First - aid measures:

Inhalation: Remove to fresh air. Keep patient warm and at rest. If shortness of breath occurs seek medical advice.

Skin Contact: Remove bulk with paper towel and wash with warm water and soap or a proprietary skin cleanser followed by an after wash barrier cream.

Eye Contact: Irrigate with copious amounts of clean water for 15 minutes holding eyelids apart. Seek medical attention if irritation persists.

Ingestion: Rinse mouth and throat with water immediately. Give water or milk to drink. Do not induce vomiting. If any discomfort arises seek medical attention. Seek immediate medical attention if large quantities are ingested or nausea occurs.

5) Fire - fighting measures: Aqueous dispersions will not burn. Dried films are combustible. Extinguishing media for dried film: Water, foam, carbon dioxide or dry powder. Hazardous decomposition products: CO, CO₂, CaO.

6) Accidental release measures: Contain spillage using sand or earth. Scoop into containers for disposal according to Local Authority regulations. Clean the area with detergent and warm water, keep away from drains and watercourses.

7) Handling and storage: Store in a cool, dry place, away from direct sunlight and other sources of heat. Avoid temperatures below 5°C and above 25°C. Do not allow to freeze. Store in original sealed cartridge. Keep out of reach of children and animals.

8) Exposure controls and personal protection: Efficient ventilation is adequate in normal use situations. Wear gloves for hand protection, along with suitable overalls and boots. Use good hygiene practices.

9) Physical and chemical properties: Appearance – White viscous paste, unless coloured version applies. VOC – 1.48%
Density – approximately 1.7g/cm³ pH – 7.0-9.0 Odour – Faint Flashpoint: N/A Solid content – approximately 85%

10) Stability & reactivity: Stable with respect to storage conditions.

11) Toxicological information: Essentially non-toxic, refer to Exposure controls.

12) Ecological information: No evidence of bioaccumulation. The biological Oxygen demand of some components may be harmful to aquatic organisms. The product is miscible in water, and is thus likely to be transported considerable distances if allowed ingress to water.

13) Disposal considerations: Dispose according to Local Authority regulations.

14) Transport information: Not classified as hazardous for transport.

15) Regulatory information: This product is not classified as hazardous. This data sheet does not constitute a user's assessment of workplace risk as required by HSW act, COSHH, Management of Health and safety at Work regulations, or other health and safety legislation.

16) Other information: The information supplied in this safety data sheet is, to the best of knowledge, true and accurate, but any recommendations or suggestions made are without guarantee since the conditions of use are beyond our control. The data contained in this safety Data Sheet has been supplied as required by the REACH Regulation (EC) No. 1907/2006 for the purpose of protecting the health and safety of industrial and commercial users who are deemed capable of understanding and acting on the information provided. **Please ensure that it is passed to the appropriate person(s) in your company, who are capable of acting on the information.**

Last revision June 2007. Updated information and emphasis on appropriate actions in sections 15 & 16.
