

Shock[†]/Splash-Resistant*¹ Digital Cordless Phone with Telephone Answering System

With the KX-TCD290, Panasonic's state-of-the-art DECT phone technology is now supported by a highly durable shock- and splash-resistant design. And since this tough, versatile phone is compatible with Caller ID*², which displays the caller's phone number, you can check who's calling before answering. Other convenient features include Hands-free Speakerphone, Multiple Handsets capability, and Telephone Answering System.

Message access even when you are out

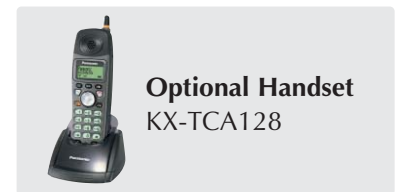

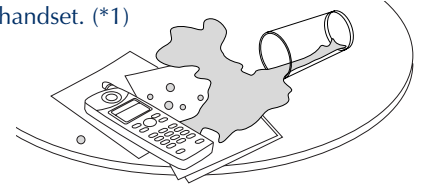

You can check your incoming calls even when you are out. Message playback can be controlled either from the base unit or the handset.

Available colour: Titanium Black (T)

Tough and Durable

You don't have to worry about damaging the internal circuitry even when accidentally splashing water or dropping the handset. (*1)

Optional Handset
KX-TCA128

A Variety of Features

Shock/Splash-Resistant Design*¹

Rubber on the edges of the handset effectively withstands the rigours of everyday use, including accidental splashes or drops. Together with its dust-proof moulding, this handset is ideal for use in the kitchen, garden or warehouse environment.

Caller ID with 50-Station Call Log*²

The unit will retain the last 50 numbers from the Caller ID memory, providing direct callback capability.

SMS: Text Messaging*²

Now the convenience of sending and receiving text messages is available from a home telephone. The LetterWise[®] predictive system greatly helps text entry by reducing multiple taps on the small keypad.

Hands-Free Speakerphone on Handset

Just press the button for hands-free talking. Gives you the freedom to talk while doing something else.

Light-up Indicator with Ringer Alert

In addition to ringing, the phone's Light-up Indicator flashes to indicate there is an incoming call.

Polyphonic Ringer Melody/Tones on Handset

You can choose a high-quality ringer sound from 9 pre-set melodies and 6 ring tones.
