

Panasonic

Digital Cordless Phone

Model No. **KX-TG8200E/KX-TG8202E**

Digital Cordless Answering System

Model No. **KX-TG8220E/KX-TG8222E**

Quick Guide

Routine care

- To clean the product, use a dry soft cloth. The outer surface of the product can be scratched by wiping or rubbing with a hard cloth.

Connections

Base unit

Important:

- If you use a telephone line cord which is not supplied, the unit may not work properly.

Charger (KX-TG8202/KX-TG8222)

PQQW15778ZA DC0607PW0

Battery installation/Battery charge

Initial charge: 7 hours

Note:

- USE ONLY rechargeable Ni-MH batteries.
- Do NOT use Alkaline/Manganese/Ni-Cd batteries.

Screen saver mode

The backlight will turn off completely after 1 minute of inactivity if the handset is not on the base unit or charger.

Press [**⏏**] to turn the display on again.

Operating tips

Using the joystick

Push the joystick up, down, left, or right to navigate through menus and to select.

Note:

- When selecting menu or the desired item, these operating instructions use the following indication.

Example: [▲]/[▼]: "OFF"

Push the joystick up or down to select the words in quotations.

Adjusting the receiver or speaker volume

Push the joystick up or down while on a call.

Soft keys

The handset features 2 soft keys and a joystick. By pressing a soft key, or by pressing the centre of the joystick, you can select the feature shown directly above it on the display.

Menu icons

When in standby mode, pressing down on the centre of the joystick reveals the handset's main menu. From here you can access various features and settings.

Frequently asked questions	
Question	Cause & solution
Why is  flashing?	<ul style="list-style-type: none"> • The handset is too far from the base unit. Move closer. • The base unit AC adaptor is not connected. Check the connections. • You are using the handset or base unit in an area with high electrical interference. Place the handset and base unit away from interference sources, such as antennas and mobile phones. • The handset is not registered to the base unit. Register it (page 7).
Why is the handset display blank?	<ul style="list-style-type: none"> • The handset is in screen saver mode. Press  to activate the handset display again.
What should I do when the handset does not turn on?	<ul style="list-style-type: none"> • Make sure that the batteries are installed correctly. • Fully charge the batteries. • Clean the charge contacts and charge again.
How long is the battery operating time?	<ul style="list-style-type: none"> • When you are using fully-charged Ni-MH batteries (supplied batteries); In continuous use: 12 hours max. In continuous standby mode: 150 hours max. • It is normal for batteries not to reach full capacity at the initial charge. Maximum battery performance is reached after a few complete cycles of charge/discharge (use). • Actual battery performance depends on a combination of how often the handset is in use and how often it is not in use (standby).
Can I keep the handset on the base unit or charger when I am not using it?	<ul style="list-style-type: none"> • Even after the handset is fully charged, the handset can be left on the base unit or charger without any ill effect on the batteries.
When should I replace the batteries?	<ul style="list-style-type: none"> • If the batteries are fully charged until  is displayed, but  is displayed after a few calls, replace the batteries with new ones.
What is a PIN?	<ul style="list-style-type: none"> • The PIN is a 4-digit number that must be entered in order to change certain base unit settings. The default PIN is "0000".

Frequently asked questions	
Question	Cause & solution
What do I need to do to display caller information?	<ul style="list-style-type: none"> You need to subscribe to Caller ID service. Consult your service provider/telephone company for details. The message "You must first subscribe to Caller ID." will be displayed until you receive caller information after subscribing to Caller ID service.
What should I do when: <ul style="list-style-type: none"> I hear static or sound cuts in and out? there is interference from other electrical units? 	<ul style="list-style-type: none"> Place the handset and the base unit away from other electrical appliances. Move closer to the base unit. Your unit is connected to a telephone line with DSL service. We recommend connecting a filter (contact your DSL service provider) to the telephone line between the base unit and the telephone line jack.
What should I do when the operating time seems to be short even after I fully charged the batteries?	<ul style="list-style-type: none"> Wipe the battery ends (+, -) and the unit contacts with a dry cloth.
What do I need to do to erase → (Missed call) from the display?	<ul style="list-style-type: none"> There are unviewed missed calls remaining. View them using the following method. <ol style="list-style-type: none">  (centre of joystick) →  → OK Push the joystick down to search from the most recent call, or push the joystick up to search from the oldest call.

Registering a handset to a base unit

The supplied handset and base unit are pre-registered. When you purchase an additional handset, refer to the additional handset's installation manual for registration. If for some reason the handset is not registered to the base unit, register the handset.
