WOODSCREWS

Performance
Woodscrews
Consistent
Quality.
ALWAYS!

The sharp, wide, deep thread
penetrates into all timbers
without a pilot hole, giving
exceptional pull-out.

Each batch checked thoroughly to
guarantee 'consistency of quality'.

REISSER®

1 Re-inforced collar

- The re-inforced collar under the head gives additional support to prevent snapping
- The collar also allows a wide, deep pozi to be inserted. This reduces the risk of the bit jumping out and rounding off the edges

2 Lubricated, sharp, wide, deep thread

- The invisible Reisser lubricant helps the screw drive in quickly and easily

3 High Strength

- Specially hardened steel gives the R2 maximum tensile and torsional strength

4 Yellow tropicalized

- Yellow tropicalized finish gives superior rust resistance compared to a standard BZP screw

5 Choice of thread

- Available in full thread (primarily for board materials) or part thread (primarily for pulling two pieces of timber together tightly)

6 25° Needle point

- Very sharp 25° point with the thread running to the end allowing immediate starting

7 Eye-catching, informative packaging

Countersunk Yellow
