

## TYPICAL STREAMLINE POINT OF USE INSTALLATIONS

### Streamline oversink

### Streamline undersink

Heatrae Sadia offers a wide range of accessories for use with its point-of-use water heaters.

Only Heatrae Sadia vented (open-outlet) taps, mixers and spouts must be used with this type of heater.

### MONOBLOC MIXER TAPS

A stylish, modern range of monobloc mixer taps with a single lever, ceramic disc action to control both temperature and flow.

Note: A minimum 1 bar mains inlet pressure is required for operation of these tap sets.

#### STREAMLINE 1000\*

A standard monobloc mixer tap

Product Code 95:970:344

#### STREAMLINE 2000\*

A monobloc mixer tap with pop-up waste fitting. (Pop-up waste fitting suitable for ceramic sinks only)

Product Code 95:970:345

#### STREAMLINE 2000\* with elbow lever

A monobloc mixer tap with elbow lever (suitable for surgical/medical environments) and pop-up waste fitting (Pop-up waste fitting suitable for ceramic sinks only)

Product Code 95:970:346

\*IMPORTANT: Streamline 1000/2000 for sinks and basins with 37.0mm to 39.0mm tap holes
