# LED Starcloth

User manual

Version 1.0

**LED STARCLOTH: For indoor use only**

**CAUTION! Please read this manual carefully before operating! Pay special attention to Sections 3 & 5 of this document.**

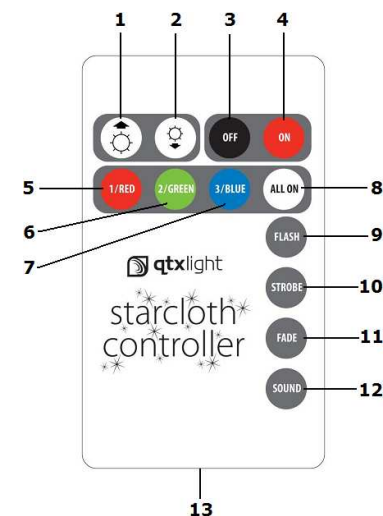

**1. General introduction :**

These starcloths are made from high quality low reflective material and can quickly be mounted onto a goalpost or DJ stand using the provided reusable cable ties, making them ideal for mobile DJs and stage use. The starcloths are operated by the included wireless IR remote control, which can be used to change settings and brightness.

**Features :**

- Dimmable LEDs
- Modes: flash, fade, strobe and sound-to-light
- High quality and hard wearing stage cloth material
- Available in white, blue and RGB LED
- Carry bag, IR remote control and reusable cable ties included
- Available in either white or black material
- Two sizes available: 1.0 x 2.0m and 2.0 x 3.0m

**10. Remote & Functions:**

1. Brightness up
2. Brightness down
3. Power OFF
4. Power ON
5. Section 1 / Red ON/OFF
6. Section 2 / Green ON/OFF
7. Section 3 / Blue ON/OFF
8. All LEDs ON/OFF
9. Auto flash sequence
10. All LEDs strobe
11. Slow fade between sections / colours
12. Sound-to-light mode
13. Battery compartment CR2025

**9. Quick trouble shooting:**

7.1 If the unit does not function – Check that the main power is on and the fuse is intact.

7.2 Check that all the cables are securely fitted.

7.3 Press the standby button on the remote control or replace the battery.

7.4 Ensure the IR receiver box is not obscured

**2. Package contents:**

Please check the contents to ensure that the product has been received in good condition.

Starcloth x 1	Carry case x 1
power supply x 1	Remote control receiver box x 1
IR Remote x 1	User’s Guide x 1pcs
Reusable cable ties	Replacement LEDS

If you find any accessory is missing or the lighting has arrived with any problems, please contact your local dealer at once. This product contains no serviceable parts. Make no attempt to try to fix or modify this item yourself as you may invalidate the warranty. We recommend you keep the original packaging and proof of purchase for repair or return.

**3. Installation :**

This product is for professional use only and every person involved with the installation, operation and maintenance of this device should be qualified and follow the instructions of this “User Guide”.

**4. Mounting instruction :**

The fixture has metal hoops around the side to assist with mounting the product. Use the provided reusable cable ties to mount on to a fixture or trussing.

Never mount in places where the fixture will be exposed to rain, high humidity, extreme temperature changes or restricted ventilation.

**5. Caution :**

For your safety, please kindly pay attention to all of the warnings below:

- Always plug in the power plug last and disconnect from the mains, when the device is not in use or before cleaning.
- Do not install and operate the device in rain or extreme heat, moisture or dusty environments.
- This device is for indoor use only and in a dry environment.
- Do not switch on immediately but wait until it reaches room temperature if the device has been exposed to drastic temperature fluctuations.
- Do not shake the device and avoid brute force when installing or operating.
- Do not use the device during thunderstorms and please disconnect the power.
- Do not use solvents or aggressive detergent to clean the device. Use a damp clean cloth to wipe away marks or a vacuum cleaner to remove dust marks etc. Do not put in a washing machine.
- Do not modify the device or the connected power cord without authorization.
- Do not stare into the light
- The symbol  determines the minimum distance from lighted objects. The minimum distance between light-output and the illuminated surface must be more than 0.5m.

**6. Connect with power supply:**

Use the plug to connect to the main power supply as following.

Line	Connection	International signal
Brown	Live	L
Blue	Neutral	N
Yellow /Green	Earth	E

**7. Replacing fuse:**

Disconnect from the main power supply first, then remove the fuse from the IEC socket or fuse holder . Replace with a fuse of the correct rating as stated on product label or user guide.

**8. General maintenance:**

To maintain optimum performance and minimize wear, you should clean the cloth frequently. Usage and environment are contributing factors in determining the life span. As a general rule you should clean at least twice a month. Dust build-up reduces light output performance and can cause overheating. This can lead to reduced life. Be sure to power off fixture before conducting maintenance.

Unplug fixture from power. Use a vacuum or air compressor and a soft brush to remove dust collected.
