Single Room Heat Recovery

Features & Benefits

Single-Room Heat Recovery

Compact, decentralised solution ideal for domestic or commercial spaces where centralised systems aren't practical.

Up to 93% Heat Recovery Efficiency

Equipped with a ceramic heat exchanger, offering high thermal efficiency for maximum energy savings.

Stylish and Discreet Design

Sleek internal panel blends seamlessly into any environment.

Effortless Maintenance

Includes washable filters (G3 at both ends) and does not require defrosting.

Quiet Operation

Low noise levels even at maximum speed – as low as 19 dB(A) at low speed on 100 model.

Remote control included for mode selection and humidity-based operation (RD models).

Technical Data

Model		RESPIRO	
		100 N / 100 RD N	150 N / 150 RD N
Airflow (m³/h)	Min	15	30
	Max	30	60
Absorbed Power (W)	Min	3.9	4.9
	Max	7.9	8.9
Sound Pressure (dBA @3m)	Min	19	13
	Max	29	23

Operation Principle

when using multiple units
