

T-Rex® is an ultra-strong, gap filling grab adhesive with extremely high initial grab using Soudal's **FIBRE REINFORCED TECHNOLOGY** which improves strength and gap filling properties.

STICKS most common building materials including wood, plywood, plasterboard, insulation boards, breeze block, ceramics, brick, stone, tile, aluminium, metal, (galvanised) steel, concrete, screed, plaster, MDF, OSB, chipboard, PVCu and most plastics (one surface should be porous).

SUITABLE FOR all types of bonding, interior & exterior, vertical & horizontal, overhead (with support where necessary), uneven surfaces.

SOLVENT FREE

T-Rex solvent free is a fibre reinforced high strength construction adhesive with extremely high initial grab (over 300kg/msq) and high bond strength. Especially suitable for porous materials.

- Fibre reinforced.
- Acrylic polymer based.
- Virtually odourless.
- Suitable for bonding on uneven surfaces.
- Direct application onto one substrate.
- Excellent adhesion on a wide range of construction materials both in interior and exterior applications.
- Initial grab 300kg/msq.

Available in white 310ml cartridges
Box Qty: 12 units
Barcode: 5411183122802
Part code: 126781

SOLVENT BASED

T-Rex solvent based is a fibre reinforced high strength construction adhesive with very high initial grab (over 125kg/msq) and high bond strength. Compatible with most building materials (porous and non-porous).

- Fibre reinforced.
- Synthetic rubber based.
- Very fast powerful bonding.
- Direct application onto one substrate.
- Replaces nails & screws.
- Suitable for bonding on uneven surfaces.
- Excellent adhesion on a wide range of construction materials both in interior and exterior applications.
- Initial grab 125kg/msq.

Available in beige 310ml cartridges
Box Qty: 12 units
Barcode: 5411183123359
Part code: 125935
