

Outdoor light

L 15

EAN 4007841617813

Functional description

We've given a touch of those past times to the L 15 wall SensorLight. Nowadays however, outdoor lights only come 'ON' when light is actually needed. The sensor can tell whether anyone's present in the detection zone and automatically switches light 'ON' and 'OFF' again. The light combines cutting-edge technology with classic design and is also extremely energy-efficient. In a nutshell: energy savings, convenience, safety and security. Guess that's everything else but yesterday.

Technical specifications

Dimensions(w x h x d):	410 x 190 x 240 mm
Voltage	230-240 V/50 Hz
Sensor type	Passive infrared
Output	60 W max. / E 27
Detection angle	180°
Tilting range	90 °
Capability of masking out individual segments	Yes
Reach	10 m max.
Time setting	8 sec. - 35 min.
Response brightness	2 - 2000 lx
Degree of protection (IP)	IP44
Protection class	II
Material	UV-resistant plastic
With lamp	No
Version	Black
