SECTION 11 – TOXICOLOGICAL PROPERTIES

The product can be used without danger for human health.

SECTION 12 – ECOLOGICAL INFORMATION

Not regarded as dangerous to the environment .

SECTION 13 – DISPOSAL CONSIDERATIONS

DISPOSAL METHOD: Material that can not be chemically reprocessed should be disposed by an approved company according to the applicable laws of local authorities. Packaging can contain quantities of hydrogen, do not use containers that are not clean and not filled with other materials. Containers that can not be cleaned must be destined for disposal.

SECTION 14 – TRANSPORTATION INFORMATION

DOT Shipping Name	Not classified
DOT Hazard Class	Not classified

This product is not classified as hazardous.

SECTION 15 – LABELLING

Accordingly to Directive CE 1999/45/CE

For the following product was not carried out a safety assessment Chemical component according to Regulation (CE) 1907/2006 (REACH).

SECTION 16 – OTHER INFORMATION

The product is intended for use by skilled or experienced personnel for the intended application as recommended by us.

The information contained herein is based on data available to us and is believed to be correct. Since this information may have been obtained in part from independent laboratories or other sources not under our direct supervision, no representation is made that the information is accurate, reliable, complete or representative and the Buyer may rely thereon only at the buyer's risk. We make no guarantee that the health and safety precautions we have suggested will be adequate for all individuals and/or situations involving its handling and use.
