

PSB MCBs

British Standards	BSEN 60898 - 1991
Rated Voltage	230/400 Volts
Tripping characteristics	Type B, C and D
Short circuit rating	10kA
Reference calibration temperature	30°C
Terminal capacity - outgoing cable	0.75 to 25mm ²

PSBS RCBO (COMBINED MCB/RCD)

British Standards	BSEN 60898 - 1991 BS 4293: 1993
Rated Voltage	230 Volts
(SP with switched neutral)	
Tripping characteristics	Type C
Short circuit rating	10kA
Reference calibration temperature	30°C
Rated residual operating current	30mA
Terminal capacity - outgoing cable	0.5 to 16mm ²

Unique live side busbar combi-terminal allows connection of cable up to 25mm²

Neutral flying lead can be removed if required for cable in/out applications.
Maximum neutral cable size 25mm²
