

So instant

Boiling and chilled
filtered water instantly
with Zip HydroTap®

So simple

No waiting for water to boil.
No more bottled water to buy.
Zip HydroTap makes life
so simple.

Press

The red lever for filtered
boiling water, blue for chilled.

Lift

The red lever for a continuous
flow of boiling water.

Safety

When activated, child safety lock
requires adult finger-thumb operation.

So quick

With **Zip HydroTap**,
you are back in seconds
with hot and cold drinks
without missing any fun.

Quicker tea

No waiting for water to boil.
Press the red lever, and out it
pours - boiling water at just the right
temperature to make perfect tea.

Quicker coffee

Lift the red lever to fill your
caffetier with boiling water, instantly.
Flick the red lever again, and the
flow stops, instantly.

Quicker drinks

Press the blue lever for an endless
supply of great-tasting, crystal-clear
filtered chilled drinking water at a
fraction of the cost of bottled water.

So clever

Just a few clever things
you can do in an instant
with your **Zip HydroTap**.

Clever soups & noodles

Dissolve stock cubes, packet soups
and noodle snacks in a flash. No need
to use a kettle or microwave.

Clever vegetables

Nothing like instant boiling
water and instant chilled water
to blanch vegetables.

Clever pasta

Start with boiling water
(instead of cold) to cut minutes
off pasta cooking time.

Clever jellies

Sweet or savoury jellies
are made in an instant with
instant boiling water.

So healthy

Here's to Zip HydroTap

sub-micron water filtration for great-tasting drinking water.

An inbuilt triple-action filter:

1. Removes micro-organisms as tiny as **one thousandth of a millimetre**.
2. Reduces chlorine and contaminants.
3. Removes particulates contaminating the water supply.
4. Inhibits mineral-scale accumulation in the boiling water storage tank.
5. Provides great-tasting, crystal-clear drinking water.
6. Does not filter out any fluoride added to the water supply.

Optional scale filter (FL3000) recommended for use in hard water areas.

Healthy filtration

Filters out chlorine taste and odour, plus micro-organisms as tiny as 1/1000th of a mm, including the parasites *cryptosporidium* and *giardia*.

N.B. With DOMHB1, triple action filter is an optional extra – part number FL004

Healthy reminder

A filter change warning light flashes to show when a filter change is due. Filter replacement at least once a year is recommended.

So sensible

Highly energy-efficient,
Zip HydroTap gives boiling
 and chilled water for just a
 few pence a day.

Minimal Energy Costs*

Costs less than 10 pence a day to run
 (with sleep mode active 10 hours in 24).
 Plus – Boiling water: eight cups for 1 pence
 Chilled water: twenty glasses for 1 pence.

Sleeps when inactive

Sleep-when-inactive feature can be pre-set
 to power-down after 2 or 4 hours of non-use,
 maintaining stored “boiling” water above 64°C.
 Recovers to pre-set boiling temperature when
 next draw off occurs.

Innovative energy saving technology

New Power-Pulse™ energy-saving
 technology cuts energy consumption.
 Applies full power (to heat boiling water)
 only during periods of heavy use. Cuts
 back to micro-pulse power during light
 usage periods or when inactive. Also
 maintains boiling water temperature
 more precisely than ever before.

Programmable 24/7 timer

Automatically disconnects the unit for preset
 periods during the day, evening or weekends.

*Energy costs based on 10p per kW/hr power
 charges. Cup = 167 ml. Glass = 200 ml.

N.B. DOMHB1 does not incorporate timer or
 sleep mode features

So practical

The optional Zip HydroTap 'font' elevates the tap outlet for filling jugs, carafes and saucepans. It also drains drips and spills to waste. Provides freedom to locate away from your sink where-ever needed.

You can install your **Zip HydroTap** practically anywhere in your kitchen, bar or summerhouse.

On its own 'font'

Position your Zip HydroTap away from your sink with the Zip 'font' accessory.

On a single sink

Install your Zip HydroTap to the rear and left of the sink bowl.

On a double sink

Install your Zip HydroTap to the rear and left of the left hand sink bowl.

So choose

1. Choose the Zip HydroTap system you need.

Boiling +Chilled
filtered boiling water
and filtered chilled water

Boiling +Cold (Ambient)
filtered boiling water and
filtered room temperature water.

Boiling Only
boiling water unfiltered.

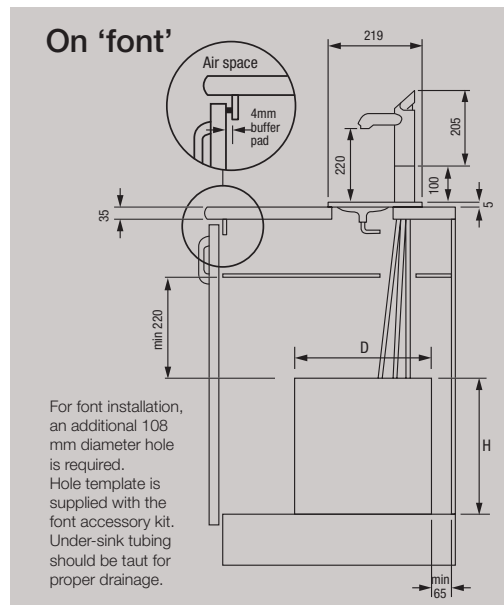

2. Choose the Zip HydroTap model matching your need.

Zip HydroTap Model type	Product Code	Boiling Water	Chilled Water	Cold Water	Water Filter	Power Rating (total kW)	Under-Sink W x D x H (mm)
<input type="checkbox"/> Boiling +Chilled	DOMBC1*	✓	✓	✗	✓	1.7 kW	385 x 380 x 348
<input type="checkbox"/> Boiling +Chilled Split System	DOMBC2*	✓	✓	✗	✓	1.7 kW	280 x 323 x 337 (B) 353 x 253 x 377 (C)
<input type="radio"/> Boiling +Ambient	DOMBA1*	✓	✗	✓	✓	1.5 kW	280 x 323 x 337
<input type="checkbox"/> Boiling only	DOMHB1	✓	✗	✗	✗	1.5 kW	188 x 320 x 334

Optional accessories: Tap Font ZT004; Scale Filter FL3000
Replacement filters: Submicron ZT002 Scale Filter FL3001

All products are available with over-size levers
***Available with optional brushed stainless steel tap**

3. Choose where your Zip HydroTap will go.
