

A mirror demister pad's typical running cost is 5p per week

- Providing a mist free mirror
- 100% effective in little over 2 minutes
- Very low energy consumption
- Simply integrated into the lighting circuit ensuring that they are not left running
- 230V supply

Features

- Protects an area approximately 20% larger than the pad itself
- Double insulated and completely sealed for total safety
- Less than 1mm thick
- Peel off adhesive backing
- 1m long power lead

MD Mirror Demisters
