

QUOIZEL

Artisans of the Lighting Industry

Since 1930, Quoizel has sought out top artisans to apply their handiwork to Quoizel's products and help to establish the company as one of the most consistent high quality manufacturers in the lighting industry. Today, that search for craftsmanship has led Quoizel to tap artisans from all over the globe, using natural materials that are indigenous to exotic lands as well as applying hands-on techniques that have been passed down through generations of craftsmen here and abroad. ■

In March 2012, Quoizel partnered with Elstead Lighting as their European and specialist 220-240v market distributor. ■
