

Black Garden Spike / Wall Light

LT-GL01B

Please read these instructions and retain them for future reference.

Important information -

It is recommended that the fittings are installed by a qualified electrician ensuring the installation complies with current IEE wiring regulations & local building control.

- These products are designed for connection to a 220-240V mains supply.
- This luminaire is suitable for a GU10 LED or Halogen lamp, 50W max (halogen).

Ħ

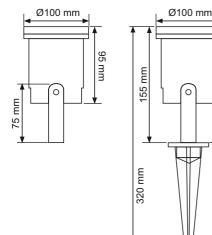

• We cannot accept responsibility for any claims arising from a poor installation.

Never fit lamps of a higher wattage or of a type other than those specified on the label as this may cause overheating and damage the fitting.

Important User Advice _

- Always switch off mains supply before installation.
- The light fitting is Class I and it requires an earth connection.

Dimensions:

Specifications:

- Mains GU10 LED or Halogen Lamp (not included)
- Voltage: 220-240V/AC
- Frequency: 50/60Hz
- Max Load: 50W (Halogen)
- IP Rating: IP65
- Body Colour: Black
- Tempered Glass
- Die Cast Aluminium Body
- Pre wired with 2m rubberised cable
- Complete with Allen Key & Hex Screws
- 2 year warranty

Before you start the installation .

- Check the packaging and make sure that you have all the required parts.
- Follow each assembly step in order to prevent incorrect installation.
- Decide the position of the fitting. Depending on the location an outdoor rated plug and socket may be required. Alternatively an IP rated outdoor connection box may be used.
- Position cables and connector box away from areas where they may be at risk from being cut, trapped or damaged.
- Do not install in very wet or boggy areas or near electrical cables, water or gas pipes.
- · Make sure all screws / nuts, including electrical connections etc are fully tightened before use.

Wiring .

3 pin Plug:

- The garden light must be connected to a 240V AC supply.
- It can be fitted to a rewireable 3 pin UK plug with a 3 amp fuse. Should the fuse require replacement, it must be replaced with a fuse rated at 3 amp. Please see **Fig. 1** for wiring instructions.

Brown - Live Green/Yellow - Earth Blue - Neutral

IP Rated Outdoor Connection Box:

• Having correctly identified the wiring from your garden light fitting, connect the cable to the IP rated outdoor connection box terminal block as shown in **Fig. 2**.

Installation Steps -

Install the garden light as shown in the Fig. 3 using the following steps:

- 1. Switch off the mains supply.
- 2. Screw the fitting in place on the wall or mount on the spike fully inserting into the ground.
- 3. Remove the cover by unscrewing the Allen screws with the Allen key provided.
- 4. Insert the lamp into the GU10 socket inside the fitting. Do not exceed the maximum wattage.
- 5. Attach the cover ensuring the gasket is fitted correctly.
- Tighten the screws in a cross-wide order using the Allen key provided to achieve an even pressure on the gasket.
- 7. Power up the fitting and test for correct operation.
