

6960 - Base Plate for 60mm Poles

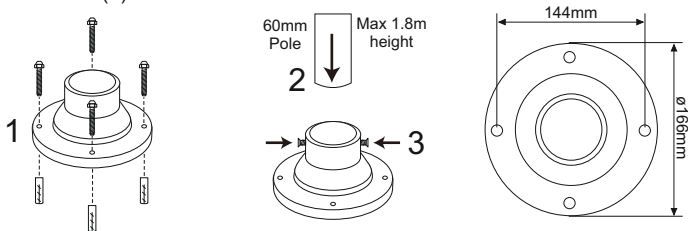

Please read these instructions before commencing installation & retain them for future reference.

Important information

- If in any doubt about the installation or use of this product, consult a qualified electrician.
- For use with 60mm poles, max 1.8m height.
- For indoor and outdoor use.
- Any broken or damaged parts should be replaced as soon as possible.
- We will not accept responsibility for any claims arising from a poor installation.

Installation Instructions:

- Fix the base to the concrete or to a solid base using the 4 heavy duty screws included (1). Ensure it is on a level flat surface and the screws are well inserted into the concrete/base.
- Insert the 60mm pole into the base plate ensuring it is in a vertical position (2).
- Secure the pole into place by tightening the 2 base side screws included (3).

Information for the Product User:

1. Please note the requirement to dispose of Waste Electrical & Electronic Equipment separately from household waste (WEEE marked with crossed out wheelie bin symbol).
2. Please consider your role in contributing to re-use and recycling by returning this product at end of life to a collection centre for waste electrical equipment.
3. This equipment may contain substances that are hazardous to health and the environment if disposed of carelessly. It is important that it is separated from normal household waste and recycled in the WEEE chain.
4. The "crossed out wheelie bin symbol" on a product indicates this equipment must not be disposed of in normal household waste, but should be disposed of according to local WEEE regulations (European "WEEE Directive" effective August 2005—UK WEEE Regulations effective 2nd January 2007).
