QUINETIC

QUPEN6
1A Quientic Smart Pendant

The WiFi Quinetic Smart Pendant dimming wireless controller with a high-efficiency switching power supply has a wide voltage range with excellent stability and durability. It supports WiFi 2.4Ghz and RF 433MHZ to control the light connected using Quinetic switches or phone APP (iPhone and Android) and has a load capacity of 1.0A. Using the Kinetic Switch APP, it can be voice controlled and easily programmed for various mood scenes as well as having a timing function. Compatible with Amazon Alexa and Google Home.
The Quinetic Smart Pendant is the right choice if you want to easily control a single pendant light.

WiFi Smart Pendant controls:

The Android and iOS app can be used to pair the Quinetic switches to the WiFi pendant to turn the lights ON/OFF and set the brightness level. In order to add the smart pendant to the phone APP the phone and the pendant must use the same wireless router and a 2.4Ghz network.

Search **Kinetic Switch** application on your AppStore or Android Market and download and install it on your iOS device (iPhone, iPad) or on your Android device.
